13) In terms of the amended Regulation 40(1) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, except in case of transmission or transposition, transfer of securities of listed companies shall not be processed unless the securities are held in dematerialized form with a Depository. In view of the above, members holding shares in physical form are requested to consider converting their holdings to dematerialized form.

14) As per the provisions of Section 72 of the Act, the facility for making nomination is available for the Members in respect of the shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting Form No. SH-13. The said form can be downloaded from the Company's website www.shankarabuildpro.com (under 'Investors' section). Members are requested to submit the said details to their depository participants ("DPs") in case the shares are held by them in electronic form and to KFin Technologies Limited in case the shares are held by them in physical form.

15) With effect from 1 April 2020, the erstwhile dividend distribution tax (DDT) has been abolished and the dividend income is now taxable in the hands of shareholders and the Company is required to deduct tax at source (TDS) from dividend paid to shareholders at the prescribed rates. Shareholders are requested to refer to the applicable Finance Act, and amendments thereof for the prescribed rates for various categories. To enable the Company to determine the appropriate TDS / withholding tax rate applicability, shareholders are requested to upload the requisite documents with the Registrar and Transfer Agent viz. KFin Technologies Limited ("RTA") by registering with First holder PAN at <https://kprism.kfintech.com> on or before June 15, 2025. No communication on the tax determination / deduction shall be entertained thereafter.

16) Members seeking any information with regard to the accounts or any matter to be placed at the AGM, are requested to write to the Company at an early date through email on compliance@shankarabuildpro.com. The same will be replied by the Company in due course.

17) The recorded transcript of the AGM will be hosted on the website of the Company.

18) SEBI vide Circular no. SEBI/HO/OIAE/ OIAE_IAD-1/P/ CIR/2023/131 dated July 31, 2023 (subsequently amended as on December 20, 2023 and August 4, 2023) has specified that a shareholder shall first take up his/her/their grievance with the listed entity by lodging a complaint directly with the concerned listed entity and if the grievance is not redressed satisfactorily, the shareholder may, in accordance with the SCORES guidelines, escalate the same through the SCORES Portal in accordance with the process laid out therein. Only after exhausting all available options for resolution of the grievance, if the shareholder is not satisfied with the outcome, he/she/they can initiate dispute resolution through the Online Dispute Resolution ("ODR") Portal. Shareholders are requested to take note of the same.

Instructions for remote e-voting:

a) Any person, whose name is recorded in the Register of Members or in the Register of beneficial owners (in case of electronic shareholding) maintained by the depositories as on the Tuesday, June 17, 2025 only shall be entitled to avail the facility of remote e-voting. The remote e-voting period commences on Saturday, June 21, 2025 at 9:00 a.m. IST and ends on Monday, June 23, 2025 at 5:00 p.m. IST. 30. Human Resource

The Human Resources function had several challenging mandates during the financial year, key among them was hiring across the organization. In FY25, we continued to accelerate hiring across all key functions to support our growth plans. As of March 31, 2025 we have 934 employees on the payroll of the Company.

31. Information Technology & Cyber Security

A comprehensive Enterprise Resource Planning (ERP) system has been implemented across the organization to facilitate the real-time management and coordination of resources, information, and core business processes. The ERP system ensures seamless integration of various functional domains, thereby enhancing interdepartmental communication, operational efficiency, productivity, and the quality of decision-making. Furthermore, it enables accurate tracking of customer demand and supports the maintenance of optimal inventory levels. The system is maintained and supported by a dedicated in-house Information Technology (IT) team to ensure its reliability and continuous improvement.

The Company believes that in the modern digital age, cyber security is not an IT/information security issue, but a business issue. The Company adopted a multidimensional approach to cyber security which enables the Company to protect the data using a multi-layered defense mechanism and a combination of tools and techniques which complement and augment each other. The processes and systems in the Company reduces the threat and to mitigate the negative financial and reputational impacts, and created an organizational culture of cyber security.

Further, the Company implemented cyber assessment on a regular basis, including email cyber-attack.

32. Annual Evaluation of Board Performance and Performance of its Committee and of Directors

Board Evaluation

Pursuant to applicable provisions of the Act, and the Listing Regulations, the Board has carried out annual evaluation of its own performance, performance of the Directors including Chairman's assessment as well as the evaluation of the working of its Committees.

The Nomination and Remuneration Committee has defined the evaluation criteria and the mechanism for carrying out the Performance Evaluation process for the Board, its Committees and Directors. The Nomination and Remuneration Committee reviewed the performance of the individual Directors and the performance of the Board and of the Committees of the Board. The evaluation process endorsed the Board Members' confidence in the ethical standards of the Company, the resilience of the Board and the Management in navigating the Company during challenging times, cohesiveness amongst the Board Members, constructive relationship between the Board and the Management and the openness of the Management in sharing strategic information to enable Board Members to discharge their responsibilities and fiduciary duties. The details of the process of performance evaluation are given in the Corporate Governance Report which forms part of this Annual Report.

The Board sought the feedback of Directors on various parameters including:

- Degree of fulfillment of key responsibilities towards stakeholders (by way of monitoring corporate governance practices, participation in the long-term strategic planning, etc.);
- Structure, composition and role clarity of the Board and Committees;
- Extent of co-ordination and cohesiveness between the Board and its Committees;
- Effectiveness of the deliberations and process management; Board/Committee culture and dynamics; and
- Quality of relationship between Board Members and the Management.

During the year, feedback was sought by way of structured questionnaires and evaluation was carried out based on various criteria and the responses received from the Directors.

Further, the Independent Directors, at their meeting held during the year, reviewed the performance of the Board, its Chairman and Non-Executive Directors.

33. Particulars of contracts or arrangements made with related parties

During the financial year ended 31 March, 2025, all the contracts or arrangements or transactions entered into by the Company with the related parties were in the ordinary course of business and on arm's length basis and are in compliance with the applicable provisions of the Companies Act, 2013 and the Listing Regulations.

There were no materially significant Related Party Transactions made by the Company during the year that required shareholders' approval under Regulation 23 of the Listing Regulations or which may have a potential conflict with the interests of the Company during the financial year.

The particulars of such transactions with related parties have been disclosed at note no. 47 in the Standalone and Consolidated Financial Statements as required under Ind AS 24- Related Party Disclosures and as specified under section 133 of the Companies Act 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, as amended.

All related party transactions are placed before the Audit Committee and the Board for approval. Prior omnibus approval of the Audit Committee is obtained for transactions which are of a foreseen and repetitive nature. Further, the related party transactions are reviewed by the Statutory Auditors of the Company.

During the year, there were no contracts or arrangements or transactions entered into with the related parties other than at arm's length price. Accordingly, there were no transactions during the year ended March 31, 2025 required to be reported in Form AOC-2 of the Companies (Accounts) Rules, 2014.

In line with the requirements of the Act and the Listing Regulations, the Company has formulated a Policy on Related Party Transactions. During the year under review, the Policy has been amended to incorporate the regulatory amendments in the Listing Regulations. 34. Corporate Governance and Shareholders' Information

The Company's Corporate Governance structure revolves around its Shareholders, the Board and its Committees. The Company's governance model is founded on core principles of transparency, integrity, professionalism, and accountability. These values underpin the effective and transparent execution of the Company's strategic objectives, thereby enabling the delivery of sustainable, long-term value to shareholders, employees, business partners, and other stakeholders.

The Company strives to reduce information asymmetry through transparency and extensive disclosures. The Company provides variety of channels through which minority shareholders can interact with the Management or the Board. Shareholders can communicate concerns and grievances and the Stakeholder's Relationship Committee oversees the redressal of these complaints.

Pursuant to Regulation 34 of the Listing Regulations, a report on Corporate Governance for the financial year 2024-25 forms an integral part of this report. The requisite certificate from a Practicing Company Secretary confirming compliance with the mandatory requirements relating to corporate governance as stipulated under the Listing Regulations is attached to the report on Corporate Governance. The MD and CFO Certificate, forming part of the Corporate Governance Report, confirms the existence and effectiveness of internal controls and reiterate their responsibilities to report deficiencies to the Audit Committee and rectify the same.

35. Risk Management

The Company has established a comprehensive and well-defined Risk Management Framework that operates across multiple levels within the organization, forming a strategic defense mechanism against a wide spectrum of risks.

This framework facilitates the proactive identification, assessment, mitigation, monitoring, and reporting of risks, while also fostering a risk-aware culture throughout the enterprise. It encompasses all key areas of potential exposure and provides a systematic approach to managing risks that could impact the Company's medium- to long-term strategic objectives, including reputational risks.

To ensure effective governance and oversight, the Company has constituted a Risk Management Committee of the Board, in compliance with the requirements of the Listing Regulations. The Committee is responsible for formulating, implementing, and monitoring the Company's Risk Management Plan. In addition, the Company has adopted a Board-approved Risk Management Policy that outlines the overarching governance structure and sets the tone for the implementation of the Risk Management Framework organization-wide.

The Risk Management Committee meets on a quarterly basis to review the status of critical risks, evaluate the progress of framework implementation across locations, and address any material exceptions that may arise. It is also empowered to monitor and review the Risk Management Plan and recommend any modifications to the Risk Management Policy for Board consideration.

The Chief Risk Officer (CRO) acts as the custodian of the Risk Management Framework and supports its implementation and ongoing oversight under the direction of the Risk Management Committee.

Furthermore, the Audit Committee of the Board provides additional oversight specifically in the areas of financial risks and internal controls, ensuring a holistic approach to risk governance across the Company.

The Risk Management Policy can be accessed on the Company's website i.e. <https://shankarabuildpro.com/wp-content/uploads/2024/06/Risk-Management-Policy.pdf>

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
**The Members,
SHANKARA BUILDING PRODUCTS LIMITED
G-2, Farah Winsford, No.133, Infantry Road,
Bangalore – 560001, Karnataka**

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **SHANKARA BUILDING PRODUCTS LIMITED** having CIN: **L26922KA1995PLC018990** (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts and statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's Books, Papers, Minute Books, Forms and Returns filed and other Records maintained by the Company and also the information provided by the Company, its Officers, Agents and Authorized Representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the Audit Period covering the Financial Year ended on March 31, 2025 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the Books, Papers, Minute Books, Forms and Returns filed and other Records maintained by the Company for the Financial Year ended on March 31, 2025 according to the provisions of:

- (i) The Companies Act, 2013 ('the Act') and the Rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment and Overseas Direct Investment and there were no External Commercial Borrowings during the period under review;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 (Not applicable to the Listed Entity during the Review Period);
 - (d) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021 (Not applicable to the Listed Entity during the Review Period);
 - (e) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (f) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (g) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;
 - (h) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 (Not applicable to the Listed Entity during the Review Period); and
 - (i) The Securities and Exchange Board of India (Buyback of Securities), Regulations, 2018 (Not applicable to the Listed Entity during the Review Period).
- (vi) There were no other specific laws, norms, or directions exclusively applicable to the Company, apart from the relevant labour laws and the general laws applicable to all companies. I have also examined compliance with the applicable clauses of the following:
 - (i) The Listing Agreements entered into by the Company with BSE Limited ("BSE") and National Stock Exchange of India Limited ("NSE");
 - (ii) Secretarial Standards 1 and 2 issued by The Institute of Company Secretaries of India ("ICSI").

During the period under review, the Company has complied with the applicable provisions of the Act, Rules, Regulations, Guidelines, Standards, etc., mentioned above.

**I further report that:**

Based on the information provided by the Company, its Officers and Authorized Representatives, during the conduct of the Audit and also on the review of the Details, Records, Documents and Papers provided, in my opinion, adequate systems and processes and control mechanism exists in the Company to monitor and to ensure compliance with applicable General Laws like Labour Laws, Competition Law and Environmental Law.

The compliance with applicable financial laws, including direct and indirect tax laws, has not been reviewed as part of this audit, since the same are subject to review by the statutory auditors and other designated professionals.

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors, Independent Directors and Women Director. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notices were given to all the Directors to schedule the Board Meetings, Agenda and detailed Notes on Agenda were sent at least Seven Days in advance and Independent Director was present wherein the Board meetings were held at a shorter notice to transact urgent matters and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

As per the minutes of the meetings duly recorded and signed by the Chairman, the decisions were carried out with requisite majority and the dissenting members' views are captured and recorded as part of the minutes.

There were adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period:

1. Our retail stores operate under the name "Shankara Buildpro". We have 138 fulfilment centres which includes our 92 retail stores, 32 warehouses and 14 processing units spread across all of South India including Goa and Puducherry. We also have robust operations in Maharashtra, Madhya Pradesh, Gujarat and Odisha. Shankara has an active online presence. We have our own portal www.buildpro.store. We are also active in other ecommerce platforms like Amazon, Flipkart etc.

We sell a very large number of products covering the entire spectrum of home renovation and construction products. We have tied up with leading brands for all our product categories. JSW, SAIL, APL Apollo, AMNS etc. for steel products. Nippon Paints for painting solutions, water proofing and numerous construction chemicals and related products. Jaquar, Kohler, Parryware and other leading brands for plumbing and bathroom solutions. Kajaria, Somany, Nitco and multiple brands for tiling and surface applications. Shankara also has tied-up with Grindwell Norton Ltd, HP Landmark, Aqua Star for roofing and fabrications accessories.

Your Company also owns several private labels in multiple segments. Fotia is our brand for tiles and adhesives. We have seen substantial success of this brand in Kerala where we had introduced it over a year ago. We are gradually expanding the brand availability to other southern states. We have our brand Taurus for specialty CR tubes, Loha for welding accessories.

Shankara caters to a very large customer base. Our customers include homeowners as well as professional customers like architects, interior designers, contractors, developers, fabricators plumbers, electricians etc. Our steel products find extensive use in construction of sheds, both for factories and warehousing. A new trend of complete steel buildings is emerging in India for which your Company is well placed to cater the entire requirement. Much of our steel reselling finds application in infrastructure, small scale industry, automobile and general engineering. We also have channel customers including wholesalers and retailers.

Shankara believes that a deep penetration of the markets in the regions we operate is the key to long term success and stability of the business. Keeping this strategy in mind, our expansion of markets is continuously focused on smaller cities and towns in the states we have business in. We also believe that having a very large customer base across multiple profiles is part of this strategy.

Supply chain and logistics is the heart of our operations and the key to sustainable success. We operate our own fleet and also have tied up with dedicated logistics companies.

Key Developments in FY25

i. Demerger

Your Company had proposed a demerger of its core business which is retail and trading of building material into its wholly owned subsidiary Shankara Buildpro Limited. Consequent to the approval by the Board of Directors of Shankara, the Company filed the scheme of arrangement with the stock exchanges in December, 2023.

Your Company felt the need for the demerger to focus better on its many diverse businesses and thereby unlock greater value for the stakeholders.

Shankara today is engaged in multiple activities like manufacturing of steel tubes and cold rolled strips, manufacturing color coated profiles for roofing and other sections for general engineering applications. These activities are housed in multiple subsidiaries. The core business of Shankara is organized retailing and distribution of steel products and numerous building materials.

Therefore, the Management proposed a demerger of its core business into a separate entity.

The demerger will result in two entities. Shankara Building Products limited which will be the legacy company housing the three subsidiaries which are manufacturing entities. The second entity will be Shankara Buildpro Limited ("Buildpro") which will carry out the current core business of retailing of steel and other building materials.

Both the entities will have clear, well-defined goals and objectives. The individual Management and Operation teams will be able to allocate resources optimally and improve the respective performances. The businesses will be free to pursue their individual goals leading to better alignment with their respective industry trends. This will certainly augur well for both the businesses in the long run. As per the scheme of arrangement it is proposed that the existing shareholders of SBPL will be allotted 1:1 shares in the resultant entity.

The approval by NCLT is in progress and next hearing is scheduled on May 26, 2025.

E-Commerce

E-Commerce is today a way of life for the average Indian consumer. Post covid the buying pattern of the Indian consumer changed more skewed towards convenience. Some years ago e-commerce was predominant for convenience goods like grocery, apparel and household items. In the recent past this trend has extended to building products also. Customers are shopping online for standard building material where a touch & feel is not very critical.

Shankara started its e-commerce initiative about two years ago by reaching out to giants like Amazon and Flipkart. The response from them was extremely positive and encouraging. We started this journey by offering a range of branded and standard bathroom & kitchen fittings. There has been a steady increase in sales over this period. We have added additional products like sanitary ware and paints.

Encouraged by the initial response and its continued growth, Shankara decided to launch its own e-commerce website www.buildpro.store. The reach of digital marketing and selling is phenomenal. We discovered that we were able to reach the far corners of the country. We also discovered that our buyers were not only direct end customers but also resellers. This has opened a huge opportunity for B2B sales without a physical presence in many a territory. We offer a vast variety of building material like steel, construction chemicals, paints & services, modular kitchens, plumbing and bathroom fittings and accessories.

II. Industry Structure and Developments

The Indian building materials industry is well developed and highly diversified. Every aspect of the necessary material to complete India's building and infrastructure needs is today "Made in India". Some specialty items and custom made luxury are imported.

The industry is well organized and plays a vital role in supporting the country's growing infrastructure and construction sectors. It encompasses a wide range of products including high-quality steel, cement, plastic goods, paints, bathroom fittings, electrical components, and numerous other essential materials. These products are critical to both residential and commercial construction activities.

The supply chain for building materials in India is well-defined and efficiently managed. It includes a network of manufacturers with production and warehousing facilities spread across multiple locations, supported by an extensive distribution network comprising wholesalers, regional distributors, and retailers. This organized framework ensures timely delivery of products to the end consumers, whether they are individual homeowners, contractors, builders or large infrastructure developers.

A key strength of the industry lies in its adaptability. It actively keeps pace with global trends, technological advancements, and evolving customer needs. Companies in this space are quick to embrace innovation, regularly launching new and improved products that meet modern construction demands—such as energy efficiency, sustainability, and ease of installation.

Overall, India's building materials sector is not only foundational to the country's infrastructure growth but also a dynamic and forward-looking industry that is continually evolving to meet the challenges and opportunities of a rapidly changing world.

The construction sector which encompasses housing, urban development and infrastructure is the backbone of any economy. This industry is one of the largest employment generators of the country. This vital sector determines the growth and health of any economy. The government has been fairly proactive to sustain a continuous growth in this key area by launching numerous schemes year on year.

- **Jal Jeevan Mission:** To achieve 100 % coverage, the mission extended till 2028 with an enhanced total outlay.
- **Public Private Partnership in Infrastructure:** Infrastructure-related ministries to come up with a 3-year pipeline of projects in PPP mode, States also encouraged.
- **Urban Challenge Fund:** An Urban Challenge Fund of ₹ 1 lakh crore announced to implement the proposals for 'Cities as Growth Hubs', 'Creative Redevelopment of Cities' and 'Water and Sanitation', allocation of ₹ 10,000 crore proposed for 2025-26.
- **Prime Minister Dhan-Dhaanya Krishi Yojana:** Developing Agri Districts Programme: The programme to be launched in partnership with the states, covering 100 districts with low productivity, moderate crop intensity and below-average credit parameters, to benefit 1.7 crore farmers.
- **Asset Monetization Plan 2025-30:** Second Plan for 2025-30 to plough back capital of ₹ 10 lakh crore in new projects announced.

Government schemes directly or indirectly have an impact on the building material industry. These schemes percolate every corner of the country. The execution of these programs are highly decentralised. As Shankara is present in many locations in South and West India, we get sizeable enquiries related to the government schemes.

III. Opportunities and Threats

The Indian construction and infrastructure sectors continue to experience robust growth, driven by rapid urbanization and government-led infrastructure initiatives. Shankara Building Products Ltd is well-positioned to capitalize on this momentum. With a strong and widespread presence across various regions of India, the Company is strategically aligned to meet the rising demand for building and construction materials.

The building materials industry itself is undergoing a dynamic transformation. Over the past few years, the sector has witnessed continuous innovation and evolution. Changing consumer preferences, influenced by exposure to global design trends and increased digital connectivity, have led to the emergence of new materials and product categories.

While these developments create new avenues for growth, they also present a set of challenges. As with any economy, uncertainties—both macroeconomic and sector-specific—are inherent. The Company's performance remains closely linked to the health of the housing market, residential construction activities, and the home improvement segment. As your Company is significantly present in steel, which is more or less commoditised, leads to constant fluctuations in price which could have an impact in demand as well as create pressure on margins.

Business Environment and Competitive Landscape

The building materials space is characterized by intense competition and operational complexities. It is a margin-sensitive industry where efficient operations, supply chain management, and customer services play a pivotal role in sustaining profitability.

Despite these challenges, your Company is confident in its ability to navigate the evolving market landscape. With over fifty years of experience in the building materials domain, the Company has developed deep industry insight, strong supplier relationships, and a loyal customer base.

The Company has also embraced a marketplace approach to business, positioning itself not just as a distributor of materials, but as a holistic solution provider catering to the diverse needs of end customers, contractors, and developers. This approach enables the Company to remain agile, expand its product offerings, and strengthen customer engagement.

As we move forward, Shankara remains committed to leveraging its strengths, enhancing operational efficiency, and exploring opportunities to expand its footprint and portfolio.

V. Segment wise/Product wise performance

Our business is structured across three key revenue streams – retail, enterprise and channel. Retail contributes ~52% of the total revenues of the Company and grew at 15% in FY 25. The enterprise business contributes ~21% of the total revenues and the channel business contributes to ~27% of the total revenues.

The Company has moved towards a market place model. We have 138 fulfillment centers which includes 92 stores, 32 warehouses and 14 processing units. As the market place model grows it makes more sense to classify our business segments as (i) Steel Products and (ii) Non-Steel Products. Steel products includes pipes, HR, CR,GP sheets (flat products), construction steel and angles, channels, beams (long products), roofing material etc. Non-Steel includes sanitary ware, tiles, PVC pipes and fittings, electricals, paints and building accessories.

I. Retail segment

Our retail revenue was ₹2,943.27 crores in FY25 which was 52% of our total sales. Our segment EBITDA margins stood at 5.72% in FY 25.

Our retail footprint spans ~5 lakhs sq.ft. Our average store size is ~5,500sq.ft.

II. Enterprise segment

In this segment, we cater to the requirements of large end users, contractors and OEMs. Our sales in this segment was ₹1,225.00 crores in FY 2025. Enterprise customers are more demanding in terms of quality parameters and specifications. This can be partly catered to with our integrated processing facilities.

III. Channel segment

In this segment we cater to dealers and other retailers through our branch network. The Channel segment continues to be a strategic business for us. It builds understanding of the markets and the emerging trends. The channel business recorded revenues of ₹1,528.32 crores for FY 25.

IV. When we look at our business through the segments of Steel and Non-Steel, the revenue would be as follows:

(₹ in crores)				
	Product	FY 25	FY 24	Growth
I.	Steel Products	5,101	4,358	17%
II.	Non-Steel Products	595	471	26%
	Total Revenue	5,696	4,828	18%

The Company feels the above classification of business segment would be more relevant in the future as the margin profile of non-steel products is better than steel products. This necessitates the Company to focus more on these products and ensure rapid growth of the same.

Processing

We have 14 functional processing units. Most of these units are engaged in the profiling of roofing sheets, accessories etc. Two units are engaged in the manufacture of precision steel tubes.

Supply chain management

Supply chain is an integral part of our business. We have a warehousing network spread over ~6.7 lakhs sq.ft across our area of operations. Warehousing is very critical in ensuring storage of the required range of material and timely delivery to our customers. The Company owns most of our warehousing space. We also own a fleet of trucks, primarily catering to short distance deliveries.

VI. Outlook

The Indian economy is poised to grow at 6.3% for the year 2026. There is an overhang of reciprocal trade tariffs by US on the global trade and how it will affect the trade and India specifically is not yet known. But despite global uncertainties and downward revisions in growth forecasts for other large economies, India is set to maintain its leadership in global economic growth. However, the current war like situation with our neighbor could hinder smooth growth in the current fiscal.

Shankara grew 30% by volume in steel, which is 90% of the Company's business and about 30% by revenue in the non-steel segment in the financial year ended March 31, 2025.

The real estate and building industry is witnessing reasonable demand in residential and in the commercial sector. This augurs well for the Company. The Company hopes to sustain a favourable growth momentum in the coming year.

VII. Risks and Concerns

As our investor, you already understand that risks are part of any business. It is not possible to detail every risk to the business. For our business, we have identified key risks:

- **Market Risks:** The fragmented unorganized market and owner driven competition at a fairly large scale affects the environment. The intensity of competition has moved beyond metros. The growing presence of small, owner-operated businesses has broadened the competitive landscape, making it increasingly difficult for established companies to retain market share, uphold pricing strength, and distinguish their brand.
- **Product Risks:** As a substantial portion of our business is steel related, the product is largely irreplaceable and hence, the risk of the product being replaced is highly unlikely. However, price fluctuations in the price of steel can have a direct impact on the margins of the business. Some products like tiles see a constant change in design and hence we have to be cautious in our inventory practices.

- **Financial Risks:** The Company serves a highly diversified customer base, which, while beneficial for broadening market reach, also introduces credit risk due to varied customer profiles and payment behaviors. A significant portion of our sales is conducted on a credit basis, exposing the Company to potential defaults. If customers delay or fail to meet their payment obligations, it could lead to an increase in bad debts, thereby adversely impacting cash flows and overall profitability.
- **Business Risks:** A significant portion of our business is generated from a large number of customers. Our business operations may fluctuate due to a variety of factors such as loss of key customers, fluctuation in demand and sales volume, timing and size of customer capital spends, inventory management practices.

VIII. Internal control systems and their adequacy

In accordance with the provision of Section 134(5) (e) of the Companies Act, 2013, and as per the provisions of the SEBI (LODR), Regulations, 2015, the Company has an Internal Control System.

Shankara management assessed the effectiveness of the company's internal control over financial reporting (as defined in Regulation 17 of SEBI LODR Regulations 2015) as of March 31, 2024. Sundaram & Srinivasan, the statutory auditors of Shankara have audited the financial statements

The internal control forms an integral part of the Company's corporate governance and plays a critical role in managing operational risks. The Company has a defined Risk Management policy applicable to all businesses of the company. This helps in identifying, assessing and mitigating the risk that could impact the Company's performance and achievement of its business objectives. The Company has Risk Management Committee consisting of Independent and Executive Directors. On a quarterly basis, the Risk Management Committee independently reviews all identified major risks & new risks, if any, and assesses the status of mitigation measures/plan.

The Company has adopted accounting policies which are in line with Indian Accounting Standards ("Ind AS"). Pursuant to the provisions of the Section 134(5) (f) of the Act, the Company during the year devised proper systems and continued to ensure compliance with the provisions of all applicable laws. Any matter that required attention was immediately dealt with. The compliance system was largely found to be adequate and operating effectively. The Directors have in the Directors Responsibility Statement under paragraph (f) confirmed the same to this effect. The Internal Auditors monitor and evaluate the effectiveness and adequacy of internal control system in the Company, its compliance with operating systems, accounting procedures and policies at all locations of the Company and its subsidiaries.

Report on Corporate Governance

[In terms of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations') and the Companies Act, 2013 (the "Act") and forms part of the Annual Report for the year ended March 31, 2025.]

Corporate governance refers to the framework of rights, processes, and controls—both internal and external—that guide the management of a business to protect stakeholder interests. It goes beyond mere compliance, representing a philosophy of transparency, accountability, and ethical conduct. This system defines the roles and responsibilities of the Board, management, shareholders, and other stakeholders, aiming to ensure the company is run responsibly and in the best interest of all. In a broader sense, it includes accountability not just to shareholders but also to employees, customers, suppliers, and the community. With globalization and a diverse investor base, corporate governance has become increasingly vital in India, influencing investment decisions and promoting sustainable value creation.

Shankara Philosophy on Corporate Governance

The Company's approach to corporate governance is rooted in ethical business practices, transparency, and accountability. As a values-driven organization, it strives to build lasting trust with shareholders, employees, customers, suppliers, and other stakeholders by upholding principles such as integrity, fairness, equity, openness, and a strong commitment to core values.

To support this, the Company has implemented robust systems and procedures that ensure its Board of Directors is well-informed and fully capable of fulfilling their responsibilities. These mechanisms also empower the Board to guide management effectively, providing strategic direction aimed at creating long-term value for shareholders.

The Board recognizes that governance expectations are constantly evolving and it is committed to keeping its standards of transparency and dissemination of information under continuous review to meet both letter and spirit of the law and its own demanding levels of business ethics. The Board oversees the Management functions and protects the long term interests of the Stakeholders. The Corporate Governance framework ensures that the Company makes timely disclosures and shares accurate information regarding the financials and performance, as well as the leadership and governance of the Company.

In line with the Company's commitment to good corporate governance practices and compliance with the provisions of Companies Act, 2013 and Listing regulations, the Company complies with the requirements stipulated under Regulation 17 to 27 and 46 read with Schedule V and clauses (b) to (i) of sub-regulation (2) of Regulation 46 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the "Listing Regulations" or SEBI LODR) as applicable with regards to corporate governance and applicable Secretarial Standards on Board and General Meetings issue by the Institute of Company Secretaries of India. c. Appointment and Tenure of the Board

The Board, upon the recommendations of the Nomination and Remuneration Committee and subject to Shareholder approval, considers the appointment and reappointment of Directors. The Nomination and Remuneration Committee, based on established criteria such as the current composition of the Board, the tenure of existing members, the remaining years of service for current members, and the need for new domain expertise, makes recommendations for the induction of new directors. These new directors are initially appointed as Additional Directors, and the Board then seeks Shareholder approval for their appointment.

The main criteria followed by the Board for appointment includes:

- The composition and size of the Board, commensurate with the size of the Company, its portfolio, geographical spread with optimal balance of skills and experience and balance of Executive and Non-Executive Directors.
- The desired age and diversity of the Board Members, professional qualifications, expertise and experience.
- The availability of time and other commitments for proper performance of duties.

As regards the tenure of Directors, following is the policy adopted by the Board:

i. Executive Directors - The Executive Directors on the Board are appointed as per the provisions of the Act and serve in accordance with the terms of their contract of employment/ service with the Company and are liable to retire by rotation.

ii. Independent Directors - The Independent Directors on the Board are appointed as per the provisions of the Act and Listing Regulations and their tenure is consistent with the Act and Listing Regulations. The Independent Directors can serve a maximum of two terms of five years each, subject to the approval of the Shareholders by way of special resolution and are not liable to retire by rotation.

iii. Non-Executive Directors - The Non-Executive Directors on the Board are appointed as per the provisions of the Act and are liable to retire by rotation.

Details of appointments/ re-appointments:

i. The members at the 29th AGM approved the appointment of Mr. N. Muthuraman (DIN: 02375046) as an Independent Director of the Company for the period of 5 (five) years with effect from May 20, 2024.

ii. The members at the 29th AGM approved the re-appointment of Mr. C. Ravikumar (DIN: 01247347) as a Director of the Company who retires by rotation.

v. None of the Directors is a Member of committee of more than ten committees or acting as a Chairperson of more than five committees across all listed companies in which they are directors, including this Company as prescribed under Regulation 26 of SEBI (LODR) Regulations, 2015. The Directors of the Company are in compliance with the requirements of the Listing regulations and the Companies Act, 2013 (as amended) (the "Act") with regard to the maximum number of directorships.

vi. The Independent Directors of the Company have declared that they meet the criteria for "independence" and / or "eligibility" as prescribed under amended Regulation 16(1)(b) of the Listing Regulations and Section 149 of the Act and have given necessary confirmations in terms of Regulation 25(8) of the Listing Regulations. Based on the said declarations and confirmations received from the Independent Directors, the Board confirms the same.

vii. None of the Directors of the Company are related to each other. The Company is in compliance with the provisions regarding Board, its composition and committees under the Act and the Listing Regulations including Regulation 17 (1) thereof.

d. Board Process and Meeting

The Board meets at regular intervals, at least once every quarter, to discuss and make decisions on the Company's business policies and strategies, in addition to other Board matters. Board and Committee meetings are pre-scheduled and communicated to the Directors well in advance, allowing them to plan their schedules and ensure active participation. In cases of special or urgent business requirements, the Board's approval is obtained through resolutions passed by circulation, as allowed by law, and these resolutions are subsequently noted and confirmed in the next Board meeting.

The notice of Board/Committee Meetings is given in advance and the Meetings are held in Bengaluru. The Agenda of the Board/Committee Meetings is set by the Company Secretary in consultation with the Managing director of the Company which is circulated a week prior to the date of the Meeting. The agenda items along with notes and information thereto (except price sensitive information, which is either placed at the meeting or sent just before meeting) as provided in Secretarial Standard (SS-1) on "Meeting of the Board of Directors" read with SEBI (LODR) Regulations, 2015 and Companies Act, 2013 ("Act"), are circulated to all Board Members well in advance before the Board Meetings. Additional agenda in the form of 'Other Business' are included with the permission of the Chairman and with the consent of the majority of the Independent Directors present at the meeting. The intimation and outcome of every Board Meeting of the Company are given to the Stock Exchanges (BSE and NSE).

To enable the Board to discharge its responsibilities effectively, the Managing Director apprises the Board at every Meeting of the overall performance of the Company, followed by presentation(s) by Chief Financial Officer of the Company.

f. Board Evaluation

Board Evaluation is a fundamental aspect of the Corporate Governance framework. In line with the provisions of the Act, Listing Regulations, and Governance Guidelines, the Board of Directors conducts an annual evaluation of its own performance, as well as that of its Committees and Individual Directors. The Board firmly believes that a robust Board Evaluation contributes significantly to creating greater value for the Company and its stakeholders. This process involves a thorough and transparent assessment, feedback, and using the evaluation results constructively to continually improve the Board's overall effectiveness while optimizing the strengths of individual members.

In collaboration with the Nomination and Remuneration Committee, the Board establishes a structured framework, process, format, criteria, attributes, and questionnaires for evaluating the performance of the Board, its Committees, and individual directors, including the Chairman, Managing Director, all while aligning with the Board's priorities and best practices.

During the year, the Company conducted an internal Board Evaluation cycle, which included assessments of the Board as a whole, its Committees, and individual Directors. The performance of the Directors was evaluated by gathering feedback from all Directors, excluding the one being evaluated. The performance of the Committees was assessed based on inputs from Committee members, considering criteria such as understanding of the terms of reference, Committee composition, independence, and contributions to Board decisions. The evaluation also focused on factors such as a Director's knowledge, understanding, and commitment to their role, alignment with the Company's vision and mission, market potential, qualifications, skills, experience, and openness in communication. These criteria are in line with the Guidance Note on Board Evaluation issued by the Securities and Exchange Board of India.

In a separate meeting, the Independent Directors evaluated the performance of Non-Independent Directors and the Board as a whole. They also assessed the quality, quantity, and timeliness of information flow between the Company management and the Board, which is essential for effective decision-making. Additionally, the Chairman's performance was evaluated, considering feedback from Executive and Non-Independent Directors. The performance of Independent Directors was assessed by the entire Board, excluding the Director being evaluated. The evaluation report, which includes an executive summary and key recommendations, was submitted to the Chairman of the Board and the Chairman of the Nomination and Remuneration Committee.

The Board was pleased with the overall performance and effectiveness of its operations. It acknowledged that the clear distinction between the roles of the Chairman and the Managing Director fosters strong collaboration, positively impacting the Company's image and performance. The professional and transparent conduct of Board and committee meetings encourages constructive discussions on strategic issues, aligning with the organization's values of integrity and fairness.

2. Independent Directors and Declarations of Independence

The Independent Directors are the Board members who are required to meet baseline definition and criteria on 'Independence' as set out in the Listing regulations and the Act read with rules and schedules thereto and other applicable regulations.

The Company has four Independent Directors as on March 31, 2025 including one Women Director and all the Independent Directors satisfy the criteria of Independence as laid down in the Companies Act, 2013 and the SEBI (LODR), Regulations, 2015.

Changes in the constitution of the Independent Directors

During the year under review, the following change occurred in view of resignation/retirement/induction of the Independent Directors.

	Name of the Director	Date of Change	Reason for change
1.	Mr. V. Ravichandrar	June 24, 2025	Completion of second term as an Independent Director of the Company

At the time of appointment and thereafter at the beginning of each financial year, the Independent Directors submit a self-declaration, confirming their independence and compliance with various eligibility criteria laid down by the Act, Listing Regulations and by the Company, among other disclosures to the Board.

c. Meeting of Independent Directors

Independent Directors play a crucial role in upholding Corporate Governance and ensuring fair decision-making. With expertise across various fields, they provide independent judgment on strategy, risk management, controls, and business performance. The Independent Directors regularly meet without the Executive Directors or Management to foster open discussions on topics such as the Company's performance, risks, information flow, competition, strategy, leadership, governance, compliance, Board matters, and the performance of executive members, including the Chairman.

In terms of the provision of Schedule IV of the Companies Act, 2013 read with Regulation 25 of SEBI (LODR), Regulations, 2015 as amended, mandate the Independent Directors to hold at least two meetings in every financial year, without the attendance of non-independent directors and members of the management.

During the financial year ended March 31, 2025, all the Independent Directors met on February 3, 2025 and March 7, 2025. The following items were considered and reviewed by the Independent Directors:

- i. Review of performance of Executive Director and Non- Executive/ Non-Independent Directors and the Board as a whole;
- ii. Review of performance of the Chairman of the Company, taking into account the views of Executive Directors and Non-Executive Directors;
- iii. The performance of the Company, Corporate Strategy, risks, competition, succession planning of the Board and the management;
- iv. Assess the quality, quantity and timeliness of flow of information between the Company management and the Board that is necessary for the Board to effectively and reasonably perform their duties.

d. Formal letter of appointment to the Independent Directors

The Company provides formal letters of appointment to all Independent Directors upon their appointment, outlining their roles, responsibilities, code of conduct, functions, and duties as Directors. The terms and conditions of their appointment are available on the Company's records.

e. Familiarization Programme for Independent Directors

Pursuant to Regulation 25(7) of the SEBI (LODR) Regulations, 2015, the familiarization programme aims to provide independent directors with the industry scenario, the socioeconomic environment in which the Company operates, the business model, the operational and financial performance of the Company, significant developments to enable them to take well-informed decisions in a timely manner. The familiarization programme also seeks to update the directors on the roles, responsibilities, rights and duties under the Companies Act, 2013 and other statutes. Opinion

We have audited the accompanying Consolidated financial statements of Shankara Building Products Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated Balance Sheet as at March 31, 2025, and the consolidated Statement of Profit and Loss, (including other comprehensive income), consolidated Statement of Changes in Equity and consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidated financial statements, including a summary of Material accounting policies information and other explanatory information (hereinafter referred to as "the Consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2025, of its consolidated profit (including other comprehensive income), consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated financial statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the Consolidated financial statements in India in terms of the Code of Ethics issued by ICAI and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

KEY AUDIT MATTER	HOW THE MATTER WAS ADDRESSED IN OUR AUDIT
<p>Inventory Existence and Valuation</p> <p>Inventory is held in various locations by the Holding Company. There are complexities and manual process involved in determining inventory quantities on hand and valuation of the same due to the diverse & numerous inventory products, multiple storage locations and price fluctuations of products. Hence, inventory quantities and valuation thereof is identified as a key audit Matter.</p>	<p>We have performed the following procedures:</p> <ul style="list-style-type: none"> We have reviewed the inventory verification reports of the Internal auditors for year 2024-2025. Comparative analysis of inventory as at the end of the year with the inventory at the beginning of the year. Verification of the correctness of valuation made by the management on a sample basis, with regard to the cost of inventory.
<p>Carrying value of Goodwill</p> <p>The group has recognised goodwill on consolidation involving three subsidiaries amounting to Rs.14.04 crore. The goodwill has to be tested for impairment annually, which requires significant judgement on the part of the management in identifying and valuing the relevant Cash Generating Unit that contains goodwill.</p>	<p>The Board of Directors of the Holding Company has tested whether there is any impairment of goodwill recognised in the financials viz. Rs. 14.04 crore. The projected discounted cash flow and Net worth of the respective Cash Generating Unit was considered in detail by the Board and on such consideration, the Board has come to the conclusion that goodwill has not suffered any impairment and can be carried at Rs. 14.04 crore.</p> <p>We have considered the basis on which the Board has arrived at this conclusion and we agree.</p>

As a result of the above audit procedures no material differences were noted. We agree with the adequacy of disclosures made in the Financial Statements.

Key Audit Matter relating to a subsidiary viz. Vishal Precision Steel Tubes and Strips Private Limited (extracts from the report of the Statutory Auditors)

KEY AUDIT MATTER	HOW THE MATTER WAS ADDRESSED
<p>Assessment of the appropriateness of the allowance for doubtful debts.</p> <ul style="list-style-type: none"> Trade Receivable comprises 12.79 % (2023-24 29.79%) of the total assets in the Statement of Financial Position (the Balance Sheet) The appropriateness of the allowance for doubtful debts is subjective due to high degree of judgement applied by the management in determining the impairment provision. Due to the significance of trade receivables and the related estimation uncertainty, this is considered as key audit risk. This disclosure is set out in the Note under Schedule 11. 	<p>Our procedure included among others:</p> <ul style="list-style-type: none"> Evaluated the debtor impairment methodology applied in the current year against the requirements of Ind AS 113 in respect of fair valuation. Analysed the methodology by comparing the prior year provision to the actual current year write offs. Assessed key ratios which include cash collections, days outstanding and delinquencies. We considered the changes in credit strategy and assessed the impact on the allowances for doubtful debts. Assessed the changes in the economy with particular reference to the sector where the company predominantly operates and the impact on the collective trade receivables. Based on the above, we satisfied ourselves that the management had taken reasonable judgements that were materially supported by the available evidence in respect of the receivable balances. We did not encounter any issues through these audit procedures that indicated that provisioning in respect of trade receivables was inappropriate.
<p>Inventory provision</p> <ul style="list-style-type: none"> Inventory comprises of 56.22 % (2023-24 40.98 %) of the total assets in the statement of financial position (Balance Sheet). As discussed in the Notes on Accounts, the management has made provision for markdowns against inventory in respect of damaged, unmarketable, unserviceable and have become obsolete. The allowance for markdown of inventory takes into account the historic information related to sales trends and estimated net realisable value has been applied in respect of the class of inventory stated above. This requires significant management judgement based on past experience, inventory ageing profile as well as different market factors impacting sale of these products. As these factors change each year, this required specific focus on the current year assumptions. Further, due to the significance of the inventories and related estimation uncertainty, this is considered as key audit risk. Accordingly, the markdown against inventory is considered to be a key audit matter and disclosure is included in the Notes on accounts. This disclosure is set out in the Note under Schedule 10 	<p>Our procedure included, among others:</p> <ul style="list-style-type: none"> Compared the provision/valuation methodology applied by the management by comparing to previous year methodology. Evaluated the assumptions and judgements applied by the management in determining such markdown provision/valuation. Tested and evaluated historical information, data trends and ageing profiles and shelf lives. Analysed the provisions by performing analytical procedures on provisioning/valuation levels including against historical experience.

KEY AUDIT MATTER	HOW THE MATTER WAS ADDRESSED
<p>Assessment of the appropriateness of the allowance for doubtful debts.</p> <ul style="list-style-type: none"> Trade Receivable comprises 18.29 % (2023-24 28.90%) of the total assets in the Statement of Financial Position (the Balance Sheet) The appropriateness of the allowance for doubtful debts is subjective due to high degree of judgement applied by the management in determining the impairment provision. Although there is a quantum jump in the overall debtors' values, the increase in terms of percentage of assets has not marked a significant growth. The recoverability of trade receivables and the level of provisions for bad and doubtful debts are considered to be key risk due to the significance of these balances to the Ind AS financial statements and the judgement required in making appropriate provisions. The disclosure is set out in the Note under Schedule 11 	<p>Our procedure included, among others:</p> <ul style="list-style-type: none"> Evaluated the debtor impairment methodology applied in the current year against the requirements of Ind AS 113 in respect of fair valuation. Information Other than the Consolidated Ind AS financial statements and Auditors' Report Thereon

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's annual report but does not include the financial statements and our report thereon.

Our opinion on the Consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed and based on the work done/ audit report of other auditors, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated financial statements

The Holding Company's Board of Directors are responsible for the preparation and presentation of these Consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the each company in the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of each company in the Group.

Auditor's Responsibilities for the Audit of the Consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than that one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the disclosures, and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entity included in the Consolidated financial statements of which we are the independent auditor. For the other entities included in the Consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other matters

Annexure A – referred to in our report under “Report on Other Legal and Regulatory requirements Para 1 (f) ” of even date on the accounts for the year ended March 31, 2025

Report on the Internal Financial Controls with reference to financial statements under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the Consolidated financial statements of the Company as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference to financial statements of Shankara Building Products Limited (hereinafter referred to as “the Holding Company”), and its subsidiary companies (the Holding Company and its Indian subsidiaries together referred to as “the Group”), as of that date.

Management’s Responsibility for Internal Financial Controls with reference to Financial Statements

The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to financial statements based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (“the ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls with reference to financial statements that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financial statements of the group, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls both issued by the ICAI.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system with reference to financial statements of the group, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to financial statements includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its Indian subsidiary companies, have, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the internal control with reference to financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements in so far as it relates to four subsidiaries, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies.

Consolidated Accounting Policies

1. GENERAL INFORMATION

Shankara Building Products Limited ("SBPL" or "the company") is a public listed company incorporated and domiciled in India. The registered office is situated at G-2 Farah Winsford, 133, Infantry Road, Bengaluru – 560001

Shankara Building Products Limited ("the Company" or "the Parent") is one of the India's leading organised retailers of home improvement and building products in India. The Parent and its subsidiaries (together referred to as "the Group") caters to a large customer base spread across various end-user segments in urban and semi-urban markets through a retail led, multi-channel sales approach complemented by processing facilities, supply chain and logistics facilities. It deals with a number of product categories including structural steel, cement, TMT bars, hollow blocks, pipes and tubes, roofing solutions, welding accessories, primers, solar heaters, plumbing, tiles, sanitary ware, water tanks, plywood, kitchen sinks, lighting and other allied products. The Company has operations spread across ten states and one union territory in India.

The company's shares are listed on the Bombay Stock Exchange 'BSE' and National Stock Exchange 'NSE'.

2. MATERIAL ACCOUNTING POLICIES INFORMATION

2.1 Statement of Compliance

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act. The aforesaid financial statements are duly adopted by the Board of Directors in the meeting held on May 16, 2025, for consideration of approval by the shareholders.

2.2 Functional and Presentation Currency

The consolidated financial statements are prepared and presented in Indian Rupees and all amounts have been presented in crore with two decimals, unless otherwise indicated.

2.3 Basis Of Preparation and Presentation

These consolidated financial statements have been prepared and presented under accrual basis of accounting and as a going concern on historical cost convention or fair values, wherever applicable, as per the requirements of Ind AS prescribed under section 133 of the Act and relevant provisions thereon.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such basis and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

Current and Non-Current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle or 12 months or other criteria as set out in the Schedule III to the Companies Act, 2013. Based on the nature of its business, the Group has ascertained its operating cycle to be 12 months for the purpose of current and non-current classification of assets and liabilities.

BASIS OF CONSOLIDATION

The Consolidated Financial Statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved where the Company:

- has power over the investee
- is exposed to, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns

The Company reassess whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than majority of the voting rights of an investee, it has power over the investee when such voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Group and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

2.4 REVENUE RECOGNITION

2.4.1 Sale of products

Revenue is recognised on fulfilment of performance obligation. In other words, revenue is recognised when a promise in a customer contract (performance obligation) has been satisfied by transferring control over the promised goods to the customer.

Revenue is measured at the fair value of the consideration received or receivable. The Group recognises revenue on sale of products, net of discounts, rebates, returns, taxes and duties on sales when the products are delivered to a carrier for sale / or direct delivery to the customer, as the case may be, which is when significant risks and rewards of ownership pass to the customer.

2.4.2 Dividend and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition. Interest income is recognised on time proportion basis.

2.4.3. Rental income

Rental income from operating leases (of the Group's investment properties) is recognised on straight-line basis over the term of the relevant lease, except where rentals are structured to increase in line with expected general inflation. Initial direct cost, if any, incurred in negotiating and arranging an operating lease are added to the carrying amount of the asset leased out and recognised on straight-line basis over the lease term.

2.4.4 Other Income

Other income is recognised on accrual basis provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably.

2.5 PROPERTY, PLANT AND EQUIPMENT

2.5.1 Recognition and measurement

The cost of Property, Plant and Equipment comprises of its purchase price, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, including relevant borrowing costs for qualifying assets and any expected costs of decommissioning, net of any trade discounts and rebates.

2.5.2 Subsequent expenditure

Expenditure incurred after the Property, Plant and Equipment have been put into operation, such as repairs and maintenance, are charged to the Statement of Profit and Loss in the period in which the costs are incurred unless such expenditure results in a significant increase in the future benefits of the concerned asset. Property, Plant and Equipment are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses, if any.

2.5.3 Disposal of Property, Plant and Equipment

An item of Property, Plant and Equipment is derecognised upon disposal or on retirement, when no future economic benefits are expected to arise from the continued use of the asset.

Any gain or loss arising on the disposal or retirement of an item of Property, Plant and Equipment is determined as the difference between the net sale proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss.

2.5.4 Depreciation

Depreciation commences when the assets are ready for their intended use. Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation is recognised so as to write off the cost of Property, Plant & Equipment (other than capital work-in-progress) less their residual values over their useful lives, using straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

Management has re-assessed the useful lives of the Property, Plant and Equipment and on the basis of technical evaluation, management is of the view that useful lives assessed by management, as above, are indicative of the estimated economic useful lives of the Property, Plant and Equipment. In respect of additions to Property, Plant and Equipment, depreciation has been charged on pro rata basis. Individual assets costing less than ₹0.0005 crore (₹5,000/-) are depreciated fully during the year of purchase.

The Group reviews the residual value, useful lives and depreciation method annually and, if current estimates differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.

2.5.5 Capital work-in-progress

Capital Work in progress includes cost of Property, Plant and Equipment under installation/under development as at the balance sheet date. Advances paid towards the acquisition of Property, Plant and Equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

2.6 INVESTMENT PROPERTIES

Property that is held for long-term rental yields or for capital appreciation or both, rather than for, use in the supply of goods or services or for administrative purposes or sale in the ordinary course of business is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable, the borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

When part of investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties (except freehold land) are depreciated using straight-line method over their estimated useful lives. Investment properties generally have a useful life of 60 years. The useful life has been determined based on technical evaluation by management.

2.7 INTANGIBLE ASSETS

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised in the income statement on a straight-line basis over their estimated useful lives of the intangible asset. Intangible assets that are not available for use are amortised from the date they are available for use.

The estimated useful life are as follows:

Software - 3 years

Brand - 3 years

The amortisation period and amortisation method for intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An item of intangible asset is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the Statement of Profit or Loss when the asset is derecognised.

2.7.1 Intangible assets under development:

An intangible asset is an identifiable non-monetary asset without physical substance. The cost of an internally generated intangible asset comprises all directly attributable costs necessary to create, produce, and prepare the asset to be capable of operating in the manner intended by the Management.

An intangible asset arising from development shall be recognised if:

- i) there is technical feasibility of completing it so that it will be available for use
- ii) the group intends to complete it and use or sell it
- iii) the group has ability to use or sell it
- iv) technical, financial and other resources are available to the group to complete it
- v) the group is able to measure reliably the expenditure attributable to the intangible asset during its development.

Intangible assets under development includes cost of services used and cost of licenses in generating the intangible asset under development as at the balance sheet date.

2.8 IMPAIRMENT OF PROPERTY, PLANT AND EQUIPMENT AND INTANGIBLE ASSETS:

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Any reversal of the previously recognised impairment loss is limited to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

2.9 Business combinations

Business combinations have been accounted for using the acquisition method under the provisions of Ind AS 103. The cost of acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the company. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired, liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition. Business combinations between entities under common control are accounted for at carrying value.

2.10 LEASES

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Effective April 01, 2019, the Group has adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 01, 2019 using the modified retrospective approach method. The Group as a lessee has recognised the lease liability based on the remaining lease payments discounted using the incremental borrowing rate as on the date of initial application (being 01st April 2019). The Right-of-Use (ROU) asset has been recognised at its carrying amount as if Ind AS 116 has been applied since the commencement date of the lease arrangement by using the incremental borrowing rate as at the transaction date (being 01st April, 2019).

The Group has not restated the comparatives information, instead, the cumulative effect of initially applying this standard has been recognised as an adjustment to the opening balance of retained earnings as on 01st April 2019.

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment of the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Group's operations, taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term for future periods is reassessed to ensure that the lease term reflects the current economic circumstances. In respect of such long-term contracts, Ind AS 116 is applied.

2.10.1 Where the Group is lessor

As per terms of lease agreements, there is no substantial transfer of risk and reward of the property to the lessee. Accordingly, such leased out assets are treated as belonging to the Group. Rental income from operating leases is recognised on straight-line basis over the term of the relevant lease. Initial direct cost, if any, incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on straight-line basis over the lease term.

2.10.2 Where the Group is a lessee

The Group's lease asset class primarily consist of leases for land and buildings. The Group assesses whether a contract contains a lease, at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (1) the contract involves the use of an identified asset (2) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee. The Group has elected to use the exemptions provided by the standard on lease contracts for which the lease term ends within 12 months as of the date of initial application, and lease contracts for which the underlying asset is of low value.

For these short-term and low value leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term or useful life of the underlying asset whichever is shorter.

Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

2.11 INVENTORIES

Inventories are stated at lower of cost and net realisable value.

Cost comprises of purchase price, freight, other attributable costs, applicable taxes not eligible for credit, less rebates and discounts, which is determined on First in First out ('FIFO') basis.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Stores and spares which does not meet the definition of Property, Plant and Equipment are accounted as inventories.

All items of inventories which are considered to be damaged, unmarketable or unserviceable and have become otherwise obsolete are valued at the estimated net realisable value.

2.11.1 Raw materials

Raw materials are valued at cost of purchase, net of duties and taxes and include all expenses incurred in bringing such materials to the location and condition of its use.

2.11.2 Finished goods

Finished goods include conversion costs in addition to the landed cost of raw materials.

2.11.3 Stock-in-trade

Cost of stock-in-trade includes the purchase price, freight, other attributable costs, applicable taxes not eligible for credit, less rebates and discounts.

2.11.4 Stores, spares and tools

Cost of stores, spares and tools includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

2.12 EMPLOYEE BENEFITS

In respect of defined contribution plan, the Group makes the stipulated contributions to provident fund, employees' state insurance and pension fund, in respect of employees to the respective authorities under which the liability of the Group is limited to the extent of the contribution.

The liability for gratuity, considered as defined benefit, is determined actuarially using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement gains and losses recognised in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement

The Group presents the first two components of defined benefit costs in profit or loss under the head 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the statement of financial position represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

The Group recognises a liability and an expense for bonus. The Group recognises a provision where contractually obligated or where there is a past practice that has created a constructive obligation.

2.13 INCOME TAX

Tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

2.13.1 Current tax

Current tax is the amount of tax payable based on the taxable profit for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961.

2.13.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each annual reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current and deferred tax are recognised in the statement of profit and loss, except when they are related to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

The Group has exercised option to pay income tax u/s. 115BAA of the Income Tax Act, 1961 from the financial year 2019-2020. Hence the provisions relating to minimum alternate tax (MAT) are not applicable to the Group.

2.14 FOREIGN CURRENCY TRANSLATION

The functional currency of the Group is determined on the basis of the primary economic environment in which it operates. The functional currency of the Group is Indian National Rupee (INR).

The transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in Statement of Profit and Loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to Statement of Profit and Loss on repayment of the monetary items.

2.15 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognised when the Group has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent Liabilities and Contingent Assets are not recognised but are disclosed in the notes.

2.16 EARNING PER SHARE

Basic earnings per share is computed by dividing the profit / (loss) after tax attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events including bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted earnings per share is computed by dividing the profit / (loss) after tax attributable to equity shareholders as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

2.17 BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use. All other borrowing costs are recognised in the Statement of Profit and Loss in the period in which they are incurred. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to interest costs.

2.18 NON-CURRENT ASSETS HELD FOR SALE/ DISTRIBUTION TO OWNERS AND DISCONTINUED OPERATIONS

The Group classifies non-current assets and disposal groups as held for sale/ distribution to owners if their carrying amounts will be recovered principally through a sale/ distribution rather than through continuing use.

Actions required to complete the sale/ distribution indicate that it is unlikely that significant changes to the sale/ distribution will be made or that the decision to sell/ distribute will be withdrawn. Management is committed to the sale/distribution, and it is expected to be completed within one year from the date of classification.

The criteria for held for sale/ distribution classification is regarded as met only when the assets or disposal group is available for immediate sale/ distribution in its present condition, subject only to terms that are usual and customary for sales/ distribution of such assets (or disposal groups), its sale/ distribution is highly probable; and it will genuinely be sold, not abandoned. The Group treats sale/ distribution of the asset or disposal group to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset (or disposal group); An active programme to locate a buyer and complete the plan has been initiated;
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value;
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification; and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale/for distribution to owners and disposal groups are measured at the lower of their carrying amount and the fair value less costs to sell/ distribute. Assets and liabilities classified as held for sale/ distribution are presented separately in the balance sheet. Property, Plant and Equipment and intangible assets once classified as held for sale/ distribution to owners are not depreciated or amortised.

Non-current assets held for sale qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- represents a separate major line of business or geographical area of operations,
- is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations
- is a subsidiary acquired exclusively with a view to resale

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

2.19 FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are initially measured at fair value or transaction value wherever appropriate. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through Statement of Profit and Loss ('FVTPL')) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in Statement of Profit and Loss.

Trade receivables are recognised when they are originated.

Trade payables are in respect of the amount due on account of goods purchased or services availed in the normal course of business. They are recognised at the transaction price i.e., the amount payable for the goods or services, if the transaction does not contain a significant financing component.

a) Financial Assets

(i) Initial recognition and measurement

All financial assets are recognised initially at fair value. Transaction costs that are directly attributable to the acquisition of financial assets (other than financial assets at fair value through Statement of Profit or Loss ('FVTPL')) are added to the fair value of the financial assets, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at FVTPL are recognised immediately in Statement of Profit and Loss.

(ii) Subsequent measurement

For the purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI);
- Debt instruments and equity instruments at fair value through profit or loss (FVTPL);
- Equity instruments measured at fair value through other comprehensive income (FVTOCI).

Debt instruments at amortised cost:

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included under the head finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI:

A 'debt instrument' is classified as FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI).

Debt instrument at FVTPL:

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as amortised cost or as FVTOCI, is classified as FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as FVTPL. However, such election is chosen only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

(iii) Derecognition of financial assets

A financial asset is de-recognised only when;

- a. The Group has transferred the rights to receive cash flows from the financial asset or
- b. The Group retains the contractual rights to receive the cash flows of the financial asset, but expects a contractual obligation to pay the cash flows to one or more recipients.

Where entity has transferred an asset, the Group examines and assesses whether it has transferred substantially all risks and rewards of ownership of financial asset. In such cases, financial asset is de-recognised.

Where entity has not transferred substantially all risks and rewards of ownership of financial asset, such financial asset is not de-recognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognised, if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, it is continued to be recognised to the extent of continuing involvement in the financial asset.

b) Financial liabilities and equity instruments

(i) Initial recognition and measurement

All financial liabilities are recognised initially at fair value giving effect to transaction cost (if any) that is attributable to the acquisition of the financial liabilities which is also adjusted.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in profit or loss when the liabilities are de-recognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included under finance costs in the statement of profit and loss.

Trade and other payables:

These amounts represent liabilities for goods or services provided to the Group which are unpaid at the end of the reporting period. Trade and other payables are presented as current liabilities when the payment is due within a period of 12 months from the end of the reporting period. For all trade and other payables classified as current, the carrying amounts approximate fair value due to the short maturity of these instruments.

Other payables falling due after 12 months from the end of the reporting period are presented as non-current liabilities and are measured at amortised cost unless designated as fair value through profit and loss at the inception.

The Group enters into deferred payment arrangements (acceptances) whereby lenders such as banks and other financial institutions make payments to supplier's banks for purchase of raw materials. The banks and financial institutions are subsequently repaid by the Group at a later date. These are normally settled up to 90 days. These arrangements for raw materials are recognised as Acceptances i.e. trade payables and are included in total outstanding dues of creditors other than micro enterprises and small enterprises.

Financial guarantee

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because, the principal debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, including transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortisation.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in statement of profit or loss are included within finance costs or finance income.

Other financial liabilities at fair value through profit or loss:

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Gains or losses on liabilities held for trading or designated as at FVTPL are recognised in the profit or loss.

(iii) Derecognition of financial liabilities:

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

c) Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

d) Impairment of Financial assets:

The Group assesses at balance sheet date, whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Group recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the expected credit losses for the next 12 months or at an amount equal to the lifetime expected credit losses, if the credit risk on the financial asset has increased significantly since initial recognition.

e) Fair value measurement:

The Group measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability which are accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable, or
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

f) Derivative financial instruments

Derivative financial instruments are accounted for at FVTPL except for derivatives designated as hedging instruments in cash flow hedge relationships, which require a specific accounting treatment. To qualify for hedge accounting, the hedging relationship must meet several strict conditions with respect to documentation, probability of occurrence of the hedged transaction and hedge effectiveness.

These arrangements have been entered into to mitigate currency exchange risk arising on account of repayment of foreign currency term loan and interest thereon. For the reporting period under audit, the Group has not designated any forward currency contracts as hedging instruments.

2.20 CASH & CASH EQUIVALENTS AND CASH FLOW STATEMENT

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Cash flows are reported using the Indirect method, whereby profit/ (loss) before extraordinary items and tax is appropriately classified for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. In cash flow statement, cash and cash equivalents include cash in hand, balances with banks in current accounts and other short- term highly liquid investments with original maturities of three months or less.

2.21 DIVIDEND ON ORDINARY SHARES

The Group recognises a liability to make cash or non-cash distributions to equity holders of the Group when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

2.22 SEGMENT REPORTING

An operating segment is defined as a component of the entity that represents business activities from which it earns revenues and incurs expenses and for which discrete financial information is available. The operating segments are based on the Group's internal reporting structure and the manner in which operating results are reviewed by the Chief Operating Decision Maker (CODM).

2.23 Recent Pronouncements:

The Ministry of Corporate Affairs ("MCA") notifies new standards or amendment to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

For the year ended March 31, 2025, MCA has notified Ind AS – 117 Insurance contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions applicable from April 01, 2024. The Group has reviewed the new pronouncements and based on its evaluation opines that it does not have any impact in its financial statements.

3. KEY SOURCES OF ESTIMATION UNCERTAINTY AND CRITICAL ACCOUNTING JUDGEMENTS

In the course of applying the policies outlined in all notes under section 2 above, the Group is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future period, if the revision affects current and future period.

(i) Useful lives of Property, Plant and Equipment:

The Board reviews the useful lives of Property, Plant and Equipment at least once a year. Such lives are dependent upon an assessment of both the technical lives of the assets and also their likely economic lives based on various internal and external factors including relative efficiency and operating costs. Accordingly depreciable lives are reviewed annually using the best information available to the Management.

(ii) Provisions and liabilities

Provisions and liabilities are recognised in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events that can reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change.

The amounts are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(iii) Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group. Potential liabilities that are possible but not probable of crystallising or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognised.

(iv) Business combinations and intangible assets

Business combinations are accounted for using Ind AS 103, Business Combinations, which requires the identifiable intangible assets and contingent consideration to be measured at fair value in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the business. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuations are conducted by independent valuation experts.

(v) Fair value measurements

When the fair values of financial assets or financial liabilities recorded or disclosed in the financial statements cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgements include consideration of inputs such as liquidity risk, credit risk and volatility.

Estimation of fair value

The best evidence of fair values is current prices in an active market for similar properties. Since investment properties are leased out by the Group, the market rate for sale/purchase of such premises are representative of fair values. Group's investment properties are at a location where active market is available for similar kind of properties. Hence fair value is ascertained on the basis of market rates prevailing for similar properties in those location as determined by an Independent registered valuer as defined under Rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017 and consequently classified as a level 2 valuation.

The credit period on goods sold ranges from 0 to 60 days without security. Trade receivable with credit impairment is identified on case to case basis.

In determining the allowances for doubtful trade receivables, the Group has used a practical expediency by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix.

Credit risk is managed at the respective entity level. Before accepting any new customer, the Group evaluates the financial soundness, business opportunities, credit references etc of the new customer and defines credit limit and credit period. The credit limit and the credit period are reviewed at periodical intervals.

The Group does not generally hold any collateral or other credit enhancements over these balances.

Trade receivables have been offered as collateral towards borrowings (refer note no 20, 25 and 44).

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the fact that the customer base is large and unrelated.

24. INCOME TAXES

Indian companies are subject to Indian income tax on a standalone basis. Each entity is assessed to tax on taxable profits determined for each fiscal year beginning on April 1 and ending on March 31.

Incomes are assessed based on book profits prepared under generally accepted accounting principles in India adjusted in accordance with the provisions of the Income tax Act, 1961. Such adjustments generally relate to depreciation of fixed assets, disallowances of certain provisions and accruals, the set-off of tax losses and depreciation carried forward and retirement benefit costs.

b) As lessee:

Various Buildings have been taken on operating lease with lease term between 11 and 144 months for office premises, storage space and retail shop, which are renewable on a periodic basis by mutual consent of both parties. There is no restriction imposed by lease arrangements, such as those concerning dividends, additional debts.

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised.

For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

43. Segment Reporting

The Group is engaged in selling various building products to Retail and Channel & Enterprise segments. The group identifies these business segments as the primary segment as per Ind AS 108 – Operating Segments, which is regularly reviewed by the Chief Operating Decision Maker for assessment of Group's performance and resource allocation. Segment Revenue, Segment Results, Segment Assets and Segment Liabilities include the respective amounts identifiable to each of the segments. The group does not have any material operations outside India and hence disclosure of geographic segments is not applicable.

b) Defined benefit plan

(i) Gratuity

The Group has funded the gratuity liability ascertained on actuarial basis, wherein every employee who has completed five years or more of service is entitled to gratuity on retirement or resignation or death calculated at last 15 days salary for each completed year of service, subject to a maximum of Rs. 20 lacs per employee. The vesting period for gratuity as payable under The Payment of Gratuity Act, 1972 is 5 years.

The plans in India typically expose the Group to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk: The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to government bond yields; if the return on plan asset is below this rate, it will create a plan deficit.

Interest risk: A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk: The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

There are no other post-retirement benefits provided to employees.

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out at 31-03-2025. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

(Rupees in Crores)

Notes to the Consolidated Financial Statements

In assessing the Group's post retirement liabilities, the Group monitors mortality assumptions and uses up-to date mortality tables, the base being the Indian assured lives mortality (2012-14) ultimate.

Expected return on plan assets is based on expectation of the average long term rate of return expected on investments of the fund during the estimated term of the obligations after considering several applicable factors such as the composition of plan assets, investment strategy, market scenario, etc.

The estimates of future salary increase, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.

Effective 29-03-2018, the Government of India has notified the Payment of Gratuity (Amendment) Act, 2018 to raise the statutory ceiling on gratuity benefit payable to each employee to Rs 20 lacs from Rs 10 lacs. Accordingly the amended and improved benefits, if any, are recognised as current year's expense as required under paragraph 103, Ind AS 19.

Sensitivity Analysis:

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality.

The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	Impact on Defined benefit obligation			
	As at 31-03-2025		As at 31-03-2024	
	Increase	Decrease	Increase	Decrease
Discount rate (1% increase)	-	0.56	-	0.51
Discount rate (1% decrease)	0.63	-	0.55	-
Future salary growth (1% increase)	0.62	-	0.56	-
Future salary growth (1% decrease)	-	0.57	-	0.51
Attrition rate (1% increase) (PY Increase - Rs 8,000)	-	0.03	0.00	0.01
Attrition rate (1% decrease) (PY Decrease - Rs 8,000)	0.04	-	0.01	0.00

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

The average expected remaining lifetime of the plan members is 6 to 7.5 years (31-03-2024 - 6 to 8 years) as at the valuation date which represents the weighted average of the expected remaining lifetime of all plan participants.

The expected maturity analysis of the benefit payments of gratuity is as follows:

Particulars	Less than a year	Between 1 - 2 years	Between 2 - 5 years	Over 5 years	Total
31-03-2025					
Defined benefit obligation (Gratuity)	1.01	1.11	3.50	6.70	12.32
Total	1.01	1.11	3.50	6.70	12.32
31-03-2024					
Defined benefit obligation (Gratuity)	1.21	1.18	3.90	6.45	12.21
Total	1.21	1.18	3.90	6.45	12.21

The Group had deployed its investment assets in an insurance plan which is invested in market linked bonds. The investment returns of the market-linked plan are sensitive to the changes in interest rates as compared with the investment returns from the smooth return investment plan. The liabilities' duration is not matched with the assets' duration.

The liabilities of the fund are funded by assets or own funds. The Group aims to maintain a close to full-funding position at each Balance Sheet date. Future expected contributions are disclosed based on this principle.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

49. Financial Instruments**A.Capital Management****(1) Capital risk management**

The Group's capital requirements are mainly to fund its expansion, working capital and strategic acquisitions. The principal source of funding of the group has been, and is expected to continue to be, cash generated from its operations supplemented by borrowings from bank and the funds from capital markets. The Group is not subject to any externally imposed capital requirements.

The Group regularly considers other financing and refinancing opportunities to diversify its debt profile, reduce finance cost and closely monitors its judicious allocation amongst competing expansion projects and strategic acquisitions, to capture market opportunities at minimum risk.

The Group monitors its capital using gearing ratio, which is net debt divided to total equity. Net debt includes, interest bearing loans and borrowings less cash and cash equivalents.

C) Financial risk management

The Group has an Audit & Risk Management Committee established by its Board of Directors for overseeing the Risk Management Framework and developing and monitoring the Group's risk management policies. The risk management policies are established to ensure timely identification and evaluation of risks, setting acceptable risk thresholds, identifying and mapping controls against these risks, monitor the risks and their limits, improve risk awareness and transparency. Risk management policies and systems are reviewed regularly to reflect changes in the market conditions and the group's activities to provide reliable information to the Management and the Board to evaluate the adequacy of the risk management framework in relation to the risk faced by the group.

The risk management policies aims to mitigate the following risks arising from the financial instruments: -

- Market risk
- Credit risk and
- Liquidity risk

1) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the market prices. The Group is exposed in the ordinary course of its business to risks related to changes in foreign currency exchange rates, commodity prices and interest rates.

Notes to the Consolidated Financial Statements

(Rupees in Crores)

i) Currency Risk

Exposure to currency risk

	USD	INR	USD	INR
Total foreign currency exposure in respect of recognised liabilities	-	-	-	-
Forward exchange contracts	-	-	-	-
Net Exposure	-	-	-	-

Sensitivity

Currency risks related to the amounts of foreign currency loans are fully hedged using derivatives that mature on the same dates as the loans are due for repayment.

(ii) Commodity price risk

The Group's revenue is exposed to the market risk of price fluctuations related to the sale of its steel and other building products. Market forces generally determine prices for the steel products sold by the group. These prices may be influenced by factors such as supply and demand, production costs (including the costs of raw material inputs) and global and regional economic conditions and growth. Adverse changes in any of these factors may reduce the revenue that the group earns from the sale of its steel products.

The Group purchases the steel and other building products in the open market from third parties as well as from subsidiaries at prevailing market price. The Group is therefore subject to fluctuations in the prices of steel coil, steel pipes, sanitary wares etc.

The Group aims to sell the products at prevailing market prices. Similarly the Group procures the products based on prevailing market rates as the selling prices of steel products and the prices of inputs move in the same direction.

Inventory Sensitivity Analysis (Raw materials, Finished goods & Stock-in-trade)

A reasonably possible changes of 1% in prices of inventory at the reporting date, would have increased (decreased) equity and profit or loss by the amounts shown below. The analysis assumes that all other variables remain constant.

Particulars	Impact on profit or loss		Impact on Equity, net of tax	
	As at 31-03-2025	As at 31-03-2024	As at 31-03-2025	As at 31-03-2024
1% increase in prices of inventory	(5.72)	(4.79)	(4.28)	(3.59)
1% decrease in prices of inventory	5.72	4.79	4.28	3.59

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is exposed to interest rate risk since funds are borrowed at both fixed and floating interest rates. Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rate. The borrowings of the group are principally denominated in rupees. The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate borrowings.

The following table provides a break-up of the Group's fixed and floating rate borrowings:

Particulars	As at 31-03-2025	As at 31-03-2024
Fixed rate borrowings	0.22	3.35
Floating rate borrowings	101.85	80.06
Total borrowings	102.07	83.41
Total Net borrowings as per Financial Statements	102.07	83.41
Add: Upfront fees	-	-
Total borrowings	102.07	83.41

Sensitivity analysis for variable-rate instruments

This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

Particulars	Impact on profit or loss		Impact on Equity, net of tax	
	As at 31-03-2025	As at 31-03-2024	As at 31-03-2025	As at 31-03-2024

100 basis points decrease in interest rates	1.02	0.80	0.76	0.60

(2) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of credit worthiness as well as concentration risks. Group's credit risk arises principally from the trade receivables and advances.

Trade receivables

Customer credit risk is managed centrally by each entity in the Group and subject to established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on financial position, past performance, business/ economic conditions, market reputation, expected business etc. Based on that credit limit & credit terms are decided. Outstanding customer receivables are regularly monitored.

Trade receivables consist of a large number of customers spread across diverse industries and geographical areas with no significant concentration of credit risk. The outstanding trade receivables are regularly monitored and appropriate action is taken for collection of overdue receivables.

(3) Liquidity risk management

Liquidity risk refers to the risk of financial distress or extraordinary high financing costs arising due to shortage of liquid funds in a situation where business conditions unexpectedly deteriorate and requiring financing. The Group requires funds both for short term operational needs as well as for strategic acquisitions. The Group generates sufficient cash flow for operations, which together with the available cash and cash equivalents and borrowings provide liquidity. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The Group has access to the following undrawn borrowing facilities at the end of the reporting period:

Financing arrangements

Particulars	As at 31-03-2025	As at 31-03-2024
Floating Rate		
- Expiring within one year	244.17	196.46
- Expiring beyond one year	-	-
	244.17	196.46

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods and its non-derivative financial assets. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows.

With respect to floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Group may be required to pay.

Notes to the Consolidated Financial Statements

(Rupees in Crores)

The Appointed date is 01.04.2024 as per the Scheme which is approved by the Board of Directors in the Board Meeting held on 18th December 2023.

The Scheme of arrangement has been approved by BSE Limited ,National Stock Exchange of India Limited vide their observation letter dated 1st July 2024 and 6th July 2024 respectively.

The Company filed an online application with the National Company Law Tribunal (NCLT) on August 17, 2024. Additionally, physical documents, including the Company application (NCLT-1), were submitted to the NCLT Bangalore bench on August 19, 2024.

Pursuant to the application filed with the Hon'ble National Company Law Tribunal, Bengaluru (NCLT) on August 17, 2024 ,the NCLT has passed an order dated 18th December, 2024 (the "Order"), directing inter alia, that a meeting be convened and held of the equity shareholders of Shankara Building Products Limited, Bengaluru (herein after mentioned as the "Company" or "Applicant Company No.1/Demerged Company"), for the purpose of considering the scheme of arrangement proposed to be made amongst Shankara Building Products Limited,Bengaluru (Applicant Company No.1/Demerged Company) and Shankara Buildpro Limited, Bengaluru (Applicant Company No.2/Resulting Company) and their respective shareholders & creditors.

In pursuance of the directions of the Hon'ble Tribunal, the meeting of the Equity Shareholders of the Demerged Company was duly convened on February 12, 2025 at 11:00 A.M. at the registered office of the Demerged Company, and the approval of the shareholders was obtained for the proposed Scheme of Arrangement. Thereafter, in accordance with the said order, the second motion petition was filed before the Hon'ble Tribunal. The petition has been admitted and listed for hearing on 26th May 2025.

The Scheme is yet to be approved by the National Company Law Tribunal, Bengaluru (NCLT) and accordingly it has no impact on the financial statements.

The Board is of the view that provisions of Ind AS 105- "Non-Current Assets Held for Sale and Discontinued Operations" are not applicable as there is no sale by the Demerged Company. Further there is no inflow of cash as consideration for sale into the Demerged Company.

60 The Group has not granted Loans or Advances in the nature of loan to any promoters, Directors, KMPs and the related parties (As per Companies Act, 2013) , which are repayable on demand or without specifying any terms or period of repayments

Standalone Audit Report and Financials - 2024 -2025

To the Members of
Shankara Building Products Limited, Bengaluru

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the Standalone Ind AS financial statements of Shankara Building Products Limited, Bengaluru ("the Company"), which comprise the Standalone Balance Sheet as at March 31, 2025, and the Standalone Statement of Profit and Loss (including other comprehensive income), standalone statement of changes in equity and Standalone Statement of Cash flows for the year then ended, and notes to the Standalone Ind AS financial statements, including a summary of Material accounting policies information and other explanatory Information (hereinafter referred to as "the Standalone Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company, as at March 31, 2025, its profit and other comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's *Responsibilities for the Audit of the Standalone Ind AS Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone Ind AS financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We confirm the adequacy of disclosures made in the Financial Statements.

Key Audit matter	How the matter was addressed in our audit
<p>INVENTORY EXISTENCE AND VALUATION</p> <p>Inventory is held in various locations by the Company. There are complexities and manual process involved in determining inventory quantities on hand and valuation of the same due to the diverse & numerous inventory products, multiple storage locations and price fluctuations of products. Hence, inventory quantities and valuation is identified as a key audit Matter.</p>	<p>We have performed the following procedures:</p> <ul style="list-style-type: none"> • We have reviewed the Inventory verification reports of the Internal auditors for the year 2024-2025. • Comparative analysis of inventory as at the end of the year with the inventory at the beginning of the year. • Verification of the correctness of valuation made by the management on a sample basis, with regard to the cost of inventory.

Information Other than the Standalone Ind AS financial statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the Standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of the Management and Those Charged with Governance for the Standalone Ind AS financial statements

The Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS financial statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in auditor's report to the related disclosures in the Standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS financial statements, including the disclosures, and whether the Standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that are of most significance in the audit of the Standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

Annexure 1 referred to in our report under "Report on Other Legal and Regulatory requirements Para 1" of even date on the accounts for the year ended March 31, 2025

(i) (a) (A) The company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(B) The company has maintained proper records showing full particulars of intangible assets.

(b) Property, Plant and Equipment are verified physically by the management in accordance with a regular programme at reasonable intervals. In our opinion the interval is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.

(c) Based on our verification of the registered sale deed provided to us, we report that, the title deeds of all immovable properties of the Company (included under Property, Plant and Equipment and Investment Property) are held in the name of the company as at the balance sheet date. In respect of title deeds hypothecated with a Bank, which were not verified by us, we relied on the confirmation received from the bank in respect of the said title deeds.

(d) The company has not revalued its Property, Plant and Equipment (including Right-of-Use asset) or intangible assets or both during the year.

(e) No proceedings have been initiated during the year or are pending against the company as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

(ii) (a) The inventory has been physically verified at reasonable intervals during the year by the management. In our opinion, the procedures for physical verification of inventory followed by the management are reasonable and adequate in relation to the size of the company and the nature of its business. The discrepancies between the physical stocks and the book stocks were not material (less than 10% in the aggregate for each class of inventory) and have been properly dealt with in the books of accounts.

(b) The company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from Banks on the basis of security of current assets. The Quarterly returns filed by the company with such banks are in agreement with books of account of the company

(iii) During the year, the company has , provided advances in the nature of loans to its wholly owned subsidiaries, renewed guarantees and securities, furnished to banks on behalf of its wholly owned subsidiaries for availing /renewing the working capital facilities by its subsidiaries . The Company has not made any investments, provided any guarantee or security or granted any loans or advances in the nature of loans secured or unsecured to firms, Limited Liability Partnerships or any other parties .

(a) During the year the Company has provided advances in the nature of loans to its wholly owned subsidiaries, furnished guarantee to banks on behalf of its wholly owned subsidiaries for availing the working capital facilities by its subsidiaries.

ANNEXURE - 2 referred to in our report under "Report on Other Legal and Regulatory requirements Para 2 "(f) " of even date on the accounts for the year ended March 31, 2025

Report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements of Shankara Building Products Limited, Bengaluru ("the Company") as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the period ended on that date.

Management's Responsibility for Internal Financial Controls with reference to Financial Statements

The Company's management is responsible for establishing and maintaining internal financial controls with reference to financial statements based on the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls with reference to financial statements that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by The Institute of Chartered Accountants of India (ICAI) and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to financial statements, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that;

- I. pertain to the maintenance of records, that in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- II. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- III. provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on;

- i. existing policies and procedures adopted by the Company for ensuring orderly and efficient conduct of business.
- ii. continuous adherence to Company's policies.
- iii. existing procedures in relation to safeguarding of Company's fixed assets, investments, inventories, receivables, loans and advances made and cash and bank balances.
- iv. existing system to prevent and detect fraud and errors.
- v. accuracy and completeness of Company's accounting records; and
- vi. existing capacity to prepare timely and reliable financial information

1. GENERAL INFORMATION

Shankara Building Products Limited ("SBPL" or "the company") is a public listed company incorporated and domiciled in India. The registered office is situated at G-2, Farah Winsford, 133, Infantry Road, Bengaluru – 560001.

The company's shares are listed on the Bombay Stock Exchange 'BSE' and National Stock Exchange 'NSE'.

Shankara Building Products Limited is one of the India's leading organised retailers of home improvement and building products in India. It caters to a large customer base spread across various end-user segments in urban and semi-urban markets through a retail led, multi-channel sales approach complemented by processing facilities, supply chain and logistics facilities. It deals with a number of product categories including structural steel, cement, TMT bars, hollow blocks, pipes and tubes, roofing solutions, welding accessories, primers, solar heaters, plumbing materials, tiles, sanitary ware, water tanks, plywood, kitchen sinks, lighting and other allied products. The company has operations spread across ten states and one union territory in India.

2. MATERIAL ACCOUNTING POLICIES INFORMATION

2.1 Statement of compliance

These Standalone financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

The Standalone financial statements for the year ended March 31, 2025 (including comparatives) are duly adopted by the Board of Directors in the meeting held on May 16, 2025 for consideration of approval by the shareholders.

2.2 Functional and presentation currency

These standalone financial statements have been prepared and presented in Indian Rupees and all amounts have been presented in crore with two decimals, except share data and as otherwise stated.

2.3 Basis of preparation and presentation

These financial statements have been prepared and presented under accrual basis of accounting and as a going concern on historical cost convention or fair values, wherever applicable, as per the requirements of Ind AS prescribed under section 133 of the Act and relevant provisions thereon.

Disclosures under Ind AS are made only in respect of material items and in respect of the items that will be useful to the users of financial statements in making economic decisions.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such basis and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

Current and Non-Current Classification

All assets and liabilities have been classified as current or non-current as per the company's normal operating cycle or 12 months or other criteria as set out in the Schedule III to the Companies Act, 2013. Based on the nature of its business, the Board has ascertained its operating cycle to be 12 months for the purpose of current and non-current classification of assets and liabilities.

2.4 Revenue recognition

2.4.1 Sale of products

Revenue is recognised on fulfilment of performance obligation. In other words, revenue is recognised when a promise in a customer contract (performance obligation) has been satisfied by transferring control over the promised goods to the customer.

Revenue is measured at the fair value of the consideration received and receivable. Revenue is recognised based on the consideration received and receivable net of discounts, rebates, returns, taxes and duties on sales when the products are delivered to a carrier for sale, which is when control of goods are transferred to the customer or directly to the customer, as the case may be.

2.4.2 Dividend and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition. Interest income is recognised on time proportion basis.

2.4.3 Rental income

Rental income from operating leases (of company's investment properties) is recognised on straight-line basis over the term of the relevant lease, except where rentals are structured to increase in line with expected general inflation. Initial direct cost, if any, incurred in negotiating and arranging an operating lease are added to the carrying amount of the asset leased out and recognised on straight-line basis over the lease term.

2.4.4 Other Income

Other income is recognised on accrual basis provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

2.5 Property, Plant and Equipment

2.5.1 Recognition and measurement

The cost of Property, Plant and Equipment comprises of its purchase price, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, including relevant borrowing costs for qualifying assets and any expected costs of decommissioning, net of any trade discounts and rebates.

2.5.2 Subsequent expenditure

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Property, Plant and Equipment are stated in the balance sheet at cost less accumulated depreciation / amortisation and impairment, if any.

2.5.3 Disposal of Property, Plant and Equipment

An item of Property, Plant and Equipment is derecognised upon disposal or on retirement, when no future economic benefits are expected to arise from the continued use of the asset.

Gains or losses on disposal are determined by comparing proceeds with the carrying amount. These are included in the Statement of Profit and Loss within other gains / (losses).

2.5.4 Depreciation

Depreciation commences when the assets are ready for their intended use. Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation is recognised so as to write off the cost of Property, Plant & Equipment (other than capital work in progress) less their residual values over their useful lives, using straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

Management has re-assessed the useful lives of the Property, Plant and Equipment and on the basis of technical evaluation, management is of the view that useful lives assessed by management, as above, are indicative of the estimated economic useful lives of the Property, Plant and Equipment. In respect of additions to Property, Plant and Equipment, depreciation has been charged on pro rata basis. Individual assets costing less than Rs. 0.0005 crore (Rs. 5,000/-) are depreciated fully during the year of purchase.

The company reviews the residual value, useful lives and depreciation method annually and, if current estimates differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.

2.5.5 Capital work-in-progress

Capital work-in-progress includes cost of Property, Plant and Equipment under installation/under development as at the balance sheet date. Advances paid towards the acquisition of Property, Plant and Equipment outstanding at each balance sheet date are classified as capital advances under other non-current assets.

2.6 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, rather than for, use in the supply of goods or services or for administrative purposes or sale in the ordinary course of business is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable, the borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties (except freehold land) are depreciated using straight-line method over their estimated useful lives. Investment properties generally have a useful life of 60 years. The useful life has been determined based on technical evaluation by management.

2.7 Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised in the income statement on a straight-line basis over their estimated useful lives of the intangible asset. Intangible assets that are not available for use are amortised from the date they are available for use.

The estimated useful lives are as follows:

Software - 3 years

Brand - 3 years

The amortisation period and amortisation method for intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An item of intangible asset is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the Statement of Profit or Loss when the asset is derecognised.

2.7.1 Intangible assets under development

An intangible asset is an identifiable non-monetary asset without physical substance. The cost of an internally generated intangible asset comprises all directly attributable costs necessary to create, produce, and prepare the asset to be capable of operating in the manner intended by the Management.

An intangible asset arising from development shall be recognised if:

- i) there is technical feasibility of completing it so that it will be available for use
- ii) the entity intends to complete it and use or sell it
- iii) the entity has ability to use or sell it
- iv) technical, financial and other resources are available to the entity to complete it
- v) the entity is able to measure reliably the expenditure attributable to the intangible asset during its development.

Intangible assets under development includes cost of services used and cost of licenses in generating the intangible asset under development as at the balance sheet date.

2.8 Impairment of Property, Plant and Equipment and Intangible Assets

At the end of each reporting period, the Board reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount.

An impairment loss is recognised immediately in the Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Any reversal of the previously recognised impairment loss is limited to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

2.9 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Effective April 01, 2019, the company has adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 01, 2019 using the modified retrospective approach method. The company as a lessee has recognised the lease liability based on the remaining lease payments discounted using the incremental borrowing rate as on the date of initial application (being 01st April, 2019).

The Right-of-Use (ROU) asset has been recognised at its carrying amount as if Ind AS 116 has been applied since the commencement date of the lease arrangement by using the incremental borrowing rate as at the transaction date (being 01st April, 2019). The company has not restated the comparative information, instead, the cumulative effect of initially applying this standard has been recognised as an adjustment to the opening balance of retained earnings as on 01st April, 2019.

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain.

The company makes an assessment of the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised.

In evaluating the lease term, the company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the company's operations, taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term for future periods is reassessed to ensure that the lease term reflects the current economic circumstances. In respect of such long-term contracts, Ind AS 116 is applied.

2.9.1 Where the company is lessor

As per terms of lease agreements, there is no substantial transfer of risk and reward of the property to the lessee. Accordingly, such leased out assets are treated as belonging to the company. Rental income from operating leases is recognised on straight-line basis over the term of the relevant lease. Initial direct cost, if any, incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on straight-line basis over the lease term.

2.9.2 Where the company is a lessee

The company's lease asset class primarily consist of leases for land and buildings. The company assesses whether a contract contains a lease, at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the company assesses whether: (1) the contract involves the use of an identified asset (2) the company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the company has the right to direct the use of the asset.

At the date of commencement of the lease, the company recognises a Right-of- Use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee. The company has elected to use the exemptions provided by the standard on lease contracts for which the lease term ends within 12 months as of the date of initial application, and lease contracts for which the underlying asset is of low value.

For these short-term and low value leases, the company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term or useful life of the underlying asset whichever shorter. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

2.10 Inventories

Inventories are stated at lower of cost and net realisable value.

Cost comprises of purchase price, freight, other attributable costs, applicable taxes not eligible for credit, less rebates and discounts, which is determined on First-in, First-out ('FIFO') basis.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and selling expenses.

Stores and spares which do not meet the definition of Property, Plant and Equipment are accounted as inventories.

All items of inventories which are considered to be damaged, unmarketable or unserviceable and have become otherwise obsolete are valued at the estimated net realisable value.

2.10.1 Raw materials

Raw materials are valued at cost of purchase, net of duties and taxes and include all expenses incurred in bringing such materials to the location and condition of its use.

2.10.2 Finished goods

Finished goods include conversion costs in addition to the landed cost of raw materials.

2.10.3 Stock in Trade

Cost of stock-in-trade includes the purchase price, freight, other attributable costs, applicable taxes not eligible for credit, less rebates and discounts.

2.10.4 Stores, spares and tools

Cost of stores, spares and tools includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

2.11 Employee benefits

In respect of defined contribution plan, the company makes the stipulated contributions to provident fund, employees' state insurance and pension fund, in respect of employees to the respective authorities under which the liability of the company is limited to the extent of the contribution.

The liability for gratuity, considered as defined benefit, is determined actuarially using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period.

Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement gains and losses recognised in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement.

The company presents the first two components of defined benefit costs in profit or loss under the head 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the statement of financial position represents the actual deficit or surplus in the company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans. A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

The company recognises a liability and an expense for bonus. The company recognises a provision where contractually obligated or where there is a past practice that has created a constructive obligation.

2.12 Income taxes

Tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

2.12.1 Current tax

Current tax is the amount of tax payable based on the taxable profit for the year as determined in accordance with the applicable tax rates and the provisions of the Indian Income Tax Act, 1961.

2.12.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences.

Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each annual reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are netted against each other if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current and deferred tax are recognised in the statement of profit and loss, except when they are related to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

The company has exercised option to pay income tax u/s. 115BAA of the Income Tax Act, 1961 from the financial year 2019-2020. Hence the provisions relating to minimum alternate tax (MAT) are not applicable to the company.

2.13 Foreign currency translation

The functional currency of the company is determined on the basis of the primary economic environment in which it operates. The functional currency of the company is Indian National Rupee (INR).

The transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in Statement of Profit and Loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;

- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to Statement of Profit and Loss on repayment of the monetary items.

2.14 Provisions, contingent liabilities and contingent assets

Provisions are recognised when the company has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent Liabilities and Contingent Assets are not recognised but are disclosed in the notes.

2.15 Earnings per share

Basic earnings per share is computed by dividing the profit after tax / (loss) attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

The weighted average number of equity shares outstanding during the year is adjusted for events including bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares). Diluted earnings per share is computed by dividing the profit / (loss) after tax attributable to equity shareholders as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

2.16 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred under finance costs. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to interest costs.

2.17 Non-current assets held for sale / distribution to owners and discontinued operations

The company classifies non-current assets and disposal groups as held for sale/distribution to owners if their carrying amounts will be recovered principally through a sale / distribution rather than through continuing use. Actions required to complete the sale/ distribution should indicate that it is unlikely that significant changes to the sale/ distribution will be made or that the decision to sell/ distribute will be withdrawn. Management must be committed to the sale/distribution and it is expected to be completed within one year from the date of classification.

The criteria for held for sale/ distribution classification is regarded as met only when the assets or disposal group is available for immediate sale/ distribution in its present condition, subject only to terms that are usual and customary for sales/ distribution of such assets (or disposal groups), its sale/ distribution is highly probable; and it will genuinely be sold, not abandoned. The company treats sale/ distribution of the asset or disposal group to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset (or disposal group); An active programme to locate a buyer and complete the plan has been initiated;

- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value;

- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification; and

- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale/for distribution to owners and disposal groups are measured at the lower of their carrying amount and the fair value less costs to sell/ distribute. Assets and liabilities classified as held for sale/ distribution are presented separately in the balance sheet. Property, Plant and Equipment and intangible assets once classified as held for sale/ distribution to owners are not depreciated or amortised.

A disposal group qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- represents a separate major line of business or geographical area of operations,

- is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations

- is a subsidiary acquired exclusively for resale.

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

2.18 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are initially measured at fair value or transaction value wherever appropriate. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through Statement of Profit and Loss ('FVTPL')) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in Statement of Profit and Loss.

Trade receivables are recognised when they are originated.

Trade payables are in respect of the amount due on account of goods purchased or services availed in the normal course of business. They are recognised at the transaction price i.e., the amount payable for the goods or services, if the transaction does not contain a significant financing component.

a) Financial Assets

(i) Recognition and initial measurement

All financial assets are recognised initially at fair value. Transaction costs that are directly attributable to the acquisition of financial assets (other than financial assets at fair value through Statement of Profit or Loss ('FVTPL')) are added to the fair value of the financial assets, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at FVTPL are recognised immediately in Statement of Profit and Loss.

(ii) Subsequent measurement

For the purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI);
- Debt instruments and equity instruments at fair value through profit or loss (FVTPL);
- Equity instruments measured at fair value through other comprehensive income (FVTOCI).

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included under the head finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI

A 'debt instrument' is classified as FVTOCI if both of the following criteria are met:

- the objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI).

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as amortised cost or as FVTOCI, is classified as FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

In addition, the company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as FVTPL. However, such election is chosen only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

(iii) De-recognition of financial assets

A financial asset is de-recognised only when;

a. The entity has transferred the rights to receive cash flows from the financial asset
or

b. The entity retains the contractual rights to receive the cash flows of the financial asset, but expects a contractual obligation to pay the cash flows to one or more recipients.

Where entity has transferred an asset, the entity examines and assesses whether it has transferred substantially all risks and rewards of ownership of financial asset. In such cases, financial asset is de-recognised. Where entity has not transferred substantially all risks and rewards of ownership of financial asset, such financial asset is not de-recognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognised, if the entity has not retained control of the financial asset. Where the entity retains control of the financial asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(iv) Investment in subsidiaries

The company's investment in equity instruments of subsidiaries is accounted for at cost as per Ind AS 27, including adjustment for fair value of obligations, if any, in relation to such subsidiaries.

b) Financial liabilities and equity instruments

(i) Initial recognition and measurement

All financial liabilities are recognised initially at fair value giving effect to transaction cost (if any) that is attributable to the acquisition of the financial liabilities which is also adjusted.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in profit or loss when the liabilities are de-recognised through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included under finance costs in the statement of profit and loss.

Trade and other payables

These amounts represent liabilities for goods or services provided to the company which are unpaid at the end of the reporting period. Trade and other payables are presented as current liabilities when the payment is due within a period of 12 months from the end of the reporting period.

For all trade and other payables classified as current, the carrying amounts approximate fair value due to the short maturity of these instruments. Other payables falling due after 12 months from the end of the reporting period are presented as non-current liabilities and are measured at amortised cost unless designated at fair value through profit and loss at the inception.

The company enters into deferred payment arrangements (acceptances) whereby lenders such as banks and other financial institutions make payments to supplier's banks for purchase of raw materials. The banks and financial institutions are subsequently repaid by the company at a later date. These are normally settled up to 90 days. These arrangements for raw materials are recognised as Acceptances i.e. trade payables and are included in total outstanding dues of creditors other than micro enterprises and small enterprises.

Financial guarantee

Financial guarantee contracts issued by the company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because, the principal debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, including transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind- AS 109 and the amount recognised less cumulative amortisation.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in statement of profit or loss are included within finance costs or finance income.

Other financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through statement of profit or loss. Gains or losses on liabilities held for trading or designated as at FVTPL are recognised in the profit or loss.

(iii) Derecognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

c) Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

d) Impairment of Financial assets

The Board assesses at balance sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the expected credit losses for the next 12 months or at an amount equal to the lifetime expected credit losses, if the credit risk on the financial asset has increased significantly since initial recognition.

e) Fair value measurement

The Board measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability which are accessible to the company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Valuation techniques that are appropriate in the circumstances are used and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable, or
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level Input that is significant to the fair value measurement as a whole) at the end of each reporting period.

f) Derivative financial instruments

Derivative financial instruments are accounted for at FVTPL except for derivatives designated as hedging instruments in cash flow hedge relationships, which require a specific accounting treatment. To qualify for hedge accounting, the hedging relationship must meet several strict conditions with respect to documentation, probability of occurrence of the hedged transaction and hedge effectiveness.

These arrangements have been entered into to mitigate currency exchange risk arising on account of repayment of foreign currency term loan and interest thereon. For the reporting period under audit, the company has not designated any forward currency contracts as hedging instruments.

2.19 Cash and cash equivalents and cash flow statement

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Cash flows are reported using the Indirect method, whereby profit/ (loss) before extraordinary items and tax is appropriately classified for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. In cash flow statement, cash and cash equivalents include cash in hand, balances with banks in current accounts and other short- term highly liquid investments with original maturities of three months or less.

2.20 Dividend on ordinary shares

The entity recognises a liability to make cash or non-cash distributions to equity holders of the company when the distribution is authorised and the distribution is no longer at the discretion of the company. The amount so authorised is recognised directly in equity.

2.21 Segment reporting

An operating segment is defined as a component of the entity that represents business activities from which it earns revenue and incurs expenses and for which discrete financial information is available. The operating segments are based on the entity's internal reporting structure and the manner in which operating results are reviewed by the Chief Operating Decision Maker (CODM).

2.22 Recent Pronouncements

The Ministry of Corporate Affairs ("MCA") notifies new standards or amendment to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

For the year ended March 31, 2025, MCA has notified Ind AS – 117 Insurance contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions applicable from April 01, 2024. The company has reviewed the new pronouncements and based on its evaluation opines that it does not have any impact in its financial statements.

3. KEY SOURCES OF ESTIMATION UNCERTAINTY AND CRITICAL ACCOUNTING JUDGEMENTS

In the course of applying the policies outlined in all notes under section 2 above, the company is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future period, if the revision affects current and future period.

(i) Useful lives of Property, Plant and Equipment

The Board reviews the useful lives of Property, Plant and Equipment once a year. Such lives are dependent upon an assessment of both the technical lives of the assets and also their likely economic lives based on various internal and external factors including relative efficiency and operating costs. Accordingly depreciable lives are reviewed annually using the best information available to the Management.

(ii) Impairment of investments in subsidiaries

Determining whether the investments in subsidiaries are impaired, requires an estimate in the value in use of investments. In considering the value in use, the Board has anticipated the future commodity prices, capacity utilisation of plants, operating margins, discount rates and other factors of the underlying businesses / operations of the investee companies.

Any subsequent changes to the cash flows due to changes in the above mentioned factors could impact the carrying value of investments, necessitating the recognition of a provision for diminution in value.

(iii) Provisions and liabilities

Provisions and liabilities are recognised in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events that can reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change. The amounts are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(iv) Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the company. Potential liabilities that are possible but not probable of crystallising or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognised.

(v) Fair value measurements

When the fair values of financial assets or financial liabilities recorded or disclosed in the financial statements cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgements include consideration of inputs such as liquidity risk, credit risk and volatility.

Estimation of fair value

The best evidence of fair values is current prices in an active market for similar properties. Since investment properties are leased out by the Company, the market rate for sale/purchase of such premises are representative of fair values. Company's investment properties are at a location where active market is available for similar kind of properties. Hence fair value is ascertained on the basis of market rates prevailing for similar properties in those location as determined by an Independent registered valuer as defined under Rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017 and consequently classified as a level 2 valuation.

The credit period on goods sold ranges from 0 to 60 days without security. Trade receivable with credit impairment is identified on case to case basis.

In determining the allowances for doubtful trade receivables, the Company has used a practical expediency by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix.

Before accepting any new customer, the company evaluates the financial soundness, business opportunities, credit references etc of the new customer and defines credit limit and credit period. The credit limit and the credit period are reviewed at periodical intervals.

The Company does not generally hold any collateral or other credit enhancements over these balances .

Trade receivables have been offered as collateral towards borrowings (refer note no 22, 27 and 44).

In determining the recoverability of a trade receivable, the Company considers any change in the credit quality of the trade receivable from the date when credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the fact that the customer base is large and unrelated.

26 INCOME TAXES

Indian companies are subject to Indian income tax on a standalone basis. Each entity is assessed to tax on taxable profits determined for each fiscal year beginning on April 1 and ending on March 31.

Incomes are assessed based on book profits prepared under generally accepted accounting principles in India adjusted in accordance with the provisions of the Income tax Act, 1961. Such adjustments generally relate to depreciation of fixed assets, disallowances of certain provisions and accruals, the set-off of tax losses and depreciation carried forward and retirement benefit costs.

The Company has opted to exercise the option permitted under section 115BAA of the Income-tax Act, 1961. Accordingly, the Company has made a provision for income tax and re-measured its deferred tax at the rate prescribed by the section. Income tax is charged at 22% plus surcharge of 10% plus health and education cess of 4%.

Total	0.51	1.00

b. As lessee:

Various Buildings have been taken on operating lease with lease term between 11 and 144 months for office premises, storage space and retail shop, which are renewable on a periodic basis by mutual consent of both parties. There is no restriction imposed by lease arrangements, such as those concerning dividends, additional debts.

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The reporting entity makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised.

For the short-term and low value leases, the reporting entity recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Contribution to Defined Contribution Plans, recognized as an expense for the year is as under:

Particulars	For the Year ended 31-03-2025	For the Year ended 31-03-2024
Employer's Contribution to Provident Fund (includes pension fund)	2.72	2.63
Employer's Contribution to Employee State Insurance	0.20	0.23

b) Defined benefit plan

(i) Gratuity

The Company has funded the gratuity liability ascertained on actuarial basis, wherein every employee who has completed five years or more of service is entitled to gratuity on retirement or resignation or death calculated at 15 days salary for each completed year of service, subject to a maximum of Rs. 20 lacs per employee. The vesting period for Gratuity as payable under The Payment of Gratuity Act, 1972 is 5 years.

The plans in India typically expose the Company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk: The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to government bond yields; if the return on plan asset is below this rate, it will create a plan deficit.

Interest risk: A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk: The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

There are no other post-retirement benefits provided to employees.

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out at 31-03-2025. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

The Company expects to contribute Rs.0.65 crores (previous year Rs.0.36 crores) to its gratuity plan for the next year.

In assessing the Company's post retirement liabilities, the Company monitors mortality assumptions and uses up-to date mortality tables, the base being the Indian assured lives mortality (2012-14) ultimate.

Expected return on plan assets is based on expectation of the average long term rate of return expected on investments of the fund during the estimated term of the obligations after considering several applicable factors such as the composition of plan assets, investment strategy, market scenario, etc.

The estimates of future salary increase, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.

Effective March 29, 2018, the Government of India has notified the Payment of Gratuity (Amendment) Act, 2018 to raise the statutory ceiling on gratuity benefit payable to each employee to Rs 20 lakhs from Rs 10 lakhs. Accordingly the amended and improved benefits, if any, are recognised as current year's expense as required under paragraph 103 of Ind AS 19.

Sensitivity Analysis:

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	Impact on Defined benefit obligation			
	For the Year ended 31-03-2025		For the Year ended 31-03-2024	
	Increase	Decrease	Increase	Decrease
Discount rate (1% increase)	-	0.45	-	0.40
Discount rate (1% decrease)	0.52	-	0.45	-
Future salary growth (1% increase)	0.51	-	0.45	-
Future salary growth (1% decrease)	-	0.46	-	0.41
Attrition rate (1% increase)	-	0.03	-	0.01
Attrition rate (1% decrease)	0.04	-	0.01	-
Mortality (increase in expected life time by 1 year)(CY Rs.4,000)	0.00	-	-	-
Mortality (increase in expected life time by 3 years)(CY Rs.11,000)	0.00	-	-	-

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

The average expected remaining lifetime of the plan members is 6 years (31-03-2024 - 6 years) as at the valuation date which represents the weighted average of the expected remaining lifetime of all plan participants.

Total	0.98	1.01	2.83	5.27	10.09

The Company had deployed its investment assets in an insurance plan which is invested in market linked bonds. The investment returns of the market-linked plan are sensitive to the changes in interest rates as compared with the investment returns from the smooth return investment plan. The liabilities' duration is not matched with the assets' duration.

The liabilities of the fund are funded by assets. The company aims to maintain a close to full-funding position at each Balance Sheet date. Future expected contributions are disclosed based on this principle.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

A. Capital Management

(1) Capital risk management

The Company's capital requirements are mainly to fund its expansion, working capital and strategic acquisitions. The principal source of funding of the Company has been, and is expected to continue to be, cash generated from its operations supplemented by borrowings from bank and funds from capital markets. The Company is not subject to any externally imposed capital requirements.

The Company regularly considers other financing and refinancing opportunities to diversify its debt profile, reduce finance cost and closely monitors its judicious allocation amongst competing expansion projects and strategic acquisitions, to capture market opportunities at minimum risk.

The Company monitors its capital using gearing ratio, which is net debt divided to total equity. Net debt includes, interest bearing loans and borrowings less cash and cash equivalents.

C. Financial risk management

The Company has an Audit & Risk Management Committee established by its Board of Directors for overseeing the Risk Management Framework and developing and monitoring the Company's risk management policies. The risk management policies are established to ensure timely identification and evaluation of risks, setting acceptable risk thresholds, identifying and mapping controls against these risks, monitor the risks and their limits, improve risk awareness and transparency. Risk management policies and systems are reviewed regularly to reflect changes in the market conditions and the Company's activities to provide reliable information to the Management and the Board to evaluate the adequacy of the risk management framework in relation to the risk faced by the Company.

The risk management policies aims to mitigate the following risks arising from the financial instruments:

- Market risk
- Credit risk; and
- Liquidity risk

(1) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the market prices. The Company is exposed in the ordinary course of its business to risks related to changes in commodity prices and interest rates.

(i) Currency Risk

Exposure to currency risk

Particulars	As at 31-03-2025		As at 31-03-2024	
	USD	INR	USD	INR
Total foreign currency exposure in respect of recognised liabilities	-	-	-	-
Forward exchange contracts	-	-	-	-
Net Exposure	-	-	-	-

Sensitivity

Currency risks related to the amounts of foreign currency loans are fully hedged using derivatives that mature on the same dates as the loans are due for repayment.

(ii) Commodity price risk:

The Company's revenue is exposed to the market risk of price fluctuations related to the sale of its steel and other building products. Market forces generally determine prices for the steel products sold by the Company. These prices may be influenced by factors such as supply and demand, production costs (including the costs of raw material inputs) and global and regional economic conditions and growth. Adverse changes in any of these factors may reduce the revenue that the Company earns from the sale of its steel products.

The Company purchases the steel and other building products in the open market from third parties as well as from subsidiaries at prevailing market price. The Company is therefore subject to fluctuations in the prices of steel coil, steel pipes, sanitary wares etc.

The Company aims to sell the products at prevailing market prices. Similarly the Company procures the products based on prevailing market rates as the selling prices of steel products and the prices of inputs move in the same direction.

Inventory Sensitivity Analysis (Stock in trade)

A reasonably possible changes of 1% in prices of inventory at the reporting date, would have increased (decreased) equity and profit or loss by the amounts shown below. The analysis assumes that all other variables remain constant.

Particulars	Impact on profit or (loss)		Impact on Equity, net of tax	
	As at 31-03-2025	As at 31-03-2024	As at 31-03-2025	As at 31-03-2024
1% increase in prices of inventory	(3.82)	(3.48)	(2.86)	(2.61)
1% decrease in prices of inventory	3.82	3.48	2.86	2.61

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk since funds are borrowed at both fixed and floating interest rates. Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rate. The borrowings of the Company are principally denominated in rupees. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings.

The following table provides a break-up of the Company's fixed and floating rate borrowings:

Particulars	As at 31-03-2025	As at 31-03-2024
Fixed rate borrowings	0.22	3.28
Floating rate borrowings	54.88	72.12
Total borrowings	55.10	75.40
Total Net borrowings as per Financial Statements	55.10	75.40
Add: Upfront fees	-	-
Total borrowings	55.10	75.40

Sensitivity analysis for variable-rate instruments

This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

Particulars	Impact on profit or (loss)		Impact on Equity, net of tax

(2) Credit risk management:

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of credit worthiness as well as concentration risks.

Company's credit risk arises principally from the trade receivables, advances and financial guarantees furnished to the lenders of the subsidiaries.

(i) Trade receivables:

Customer credit risk is managed centrally by the company and subject to established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on financial position, past performance, business/economic conditions, market reputation, expected business etc. Based on that credit limit & credit terms are decided. Outstanding customer receivables are regularly monitored.

Trade receivables consist of a large number of customers spread across diverse industries and geographical areas with no significant concentration of credit risk. The outstanding trade receivables are regularly monitored and appropriate action is taken for collection of overdue receivables.

The company does not anticipate any downfall in the current level of performance of the subsidiaries in the near future. The network of the subsidiaries are sufficient enough to manage in the event of default.

(3) Liquidity risk management

Liquidity risk refers to the risk of financial distress or extraordinary high financing costs arising due to shortage of liquid funds in a situation where business conditions unexpectedly deteriorate and requiring financing. The Company requires funds both for short term operational needs as well as for strategic acquisitions. The Company generates sufficient cash flow for operations, which together with the available cash and cash equivalents and borrowings provide liquidity. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The company has access to the following undrawn borrowing facilities at the end of the reporting period:
