Independent Auditor's Report

To the Members of Taurus Value Steel & Pipes Private Limited

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of Taurus Value Steel & Pipes Private Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flow and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (herein after referred to as the "Financial Statements").
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, and its loss (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Financial Statements.

Key Audit Matter

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report.

Information other than the Financial Statements and Auditor's Report thereon

5. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Director's Report, but does not include the financial statements and our auditor's report thereon.

OMN & ASSOCIATES CHARTERED ACCOUNTANTS

Bhaswa Business Park,

Email:mkjain@omnassociates.in

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is no material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

6. The accompanying financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
7. In preparing the financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
8. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

9. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

OMN & ASSOCIATES CHARTERED ACCOUNTANTS

Bhaswa Business Park,
6-3-866,1/1, 2&3
Greenland, Begumpet
Contact: 9391001659
Email:mkjain@omnassociates.in

10. As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

13. Based we report that the Company has not paid or provided for any managerial remuneration during the year. Accordingly, reporting under section 197(16) of the Act is not applicable.
14. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act we give in the Annexure I, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

15. Further to our comments in Annexure II, as required by section 143(3) of the Act based on our audit, we report, to the extent applicable, that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying financial statements;
- b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) The financial statements dealt with by this report are in agreement with the books of account;
- d) in our opinion, the aforesaid financial statements comply with Ind AS specified under section 133 of the Act;
- e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2025 from being appointed as a director in terms of section 164(2) of the Act;
- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company as on 31 March 2025 and the operating effectiveness of such controls, refer to our separate Report in Annexure II wherein we have expressed an unmodified opinion; and
- g) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company does not have any pending litigation(s) which would impact its financial position as at 31 March 2025;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2025;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2025;
 - iv.
 - a. The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from or in any persons or entities, including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;

Contact: 9391001659
Email:mkjain@omnassociates.in

- b. The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- c. Based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.

- v. The Company has not declared or paid any dividend during the year ended 31 March 2025;
- vi. Based on our examination, which included test checks, the Company has used accounting software's for maintaining its books of account for the financial year ended 31 March 2025 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software's. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

Annexure I referred to in Paragraph 14 of the Independent Auditor's Report of even date to the members of Taurus Value Steel & Pipes Private Limited on the financial statements for the year ended 31 March 2025

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, right of use assets and investment property.
(B) The Company does not have any intangible assets and accordingly, reporting under clause 3(i)(a)(B) of the Order is not applicable to the Company.
- (b) The Company has a regular programme of physical verification of its property, plant and equipment, right of use assets and investment property under which the assets are physically verified in a phased manner over a period of three years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, certain property, plant and equipment, right of use assets and investment property were verified during the year and no material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties including investment properties held by the Company (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in notes to the financial statements are held in the name of the Company.
- (d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) during the year. Further, the Company does not hold any intangible assets.
- (e) No proceedings have been initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended) and rules made thereunder.

- (ii) (a) The management has conducted physical verification of inventory at reasonable intervals during the year. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed as compared to book records.
- (b) The Company has been sanctioned a working capital limit in excess of Rs 5 crore, by banks or financial institutions on the basis of security of current assets. The quarterly statements, in respect of the working capital limits have been filed by the Company with such banks or financial institutions and such statements are in agreement with the books of account of the Company for the respective periods, which were subject to audit.
- (iii) The Company has not made any investment in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or any other parties during the year. Accordingly, reporting under clause 3(iii) of the Order is not applicable to the Company.

- iv. The Company has not entered into any transaction covered under sections 185 of the Act. In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of sections 186 of the Act.
- (v) In our opinion, and according to the information and explanations given to us, the Company has not accepted any deposits or there are no amounts which have been deemed to be deposits within the meaning of sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, reporting under clause 3(v) of the Order is not applicable to the Company.
- (vi) The Central Government has specified maintenance of cost records under sub-section (1) of section 148 of the Act in respect of the products of the Company. We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records and are of the opinion that, *prima facie*, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii)(a) In our opinion, and according to the information and explanations given to us, the Company is regular in depositing undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, with the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, there are no statutory dues referred in sub-clause (a) which have not been deposited with the appropriate authorities on account of any dispute except for the following:

Name of the statute	Nature of dues	Gross Amount (₹)	Period to which the amount relates	Forum where dispute is pending
High Court	Entry Tax	96,57,000	2013-14 2014-15 2015-16 2016-17 2017-18	High Court of Telangana & Andhra Pradesh
Goods and Service Tax	GST	27,49,266	2019-20	GST Appellate authority

(viii) According to the information and explanations given to us, no transactions were surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961) which have not been previously recorded in the books of accounts.

(ix)

- (a) According to the information and explanations given to us, the Company has not defaulted in repayment of its loans or borrowings or in the payment of interest thereon to any lender.
- (b) According to the information and explanations given to us including representation received from the management of the Company, and on the basis of our audit procedures, we report that the Company has not been declared a willful defaulter by any bank or financial institution or government or any government authority.
- (c) In our opinion and according to the information and explanations given to us, money raised by way of term loans were applied for the purposes for which these were obtained.
- (d) In our opinion and according to the information and explanations given to us, and on an overall examination of the financial statements of the Company, funds raised by the Company on short term basis have, *prima facie*, not been utilised for long term purposes.
- (e) According to the information and explanations given to us, the Company does not have any subsidiaries, associates or joint ventures. Accordingly, reporting under clause 3(ix)(e) and clause 3(ix)(f) of the Order is not applicable to the Company.

(x) (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments), during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or (fully, partially or optionally) convertible debentures during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable to the Company.

(xi) (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or no material fraud on the Company has been noticed or reported during the period covered by our audit.

(b) According to the information and explanations given to us including the representation made to us by the management of the Company, no report under sub-section 12 of section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014, with the Central Government for the period covered by our audit.

(c) According to the information and explanations given to us including the representation made to us by the management of the Company, there are no whistle-blower complaints received by the Company during the year.

Email:mkjain@omnassociates.in

- (xii) The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.
- (xiii) In our opinion and according to the information and explanations given to us, all transactions entered into by the Company with the related parties are in compliance with sections 177 and 188 of the Act, where applicable. Further, the details of such related party transactions have been disclosed in the financial statements, as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under section 133 of the Act.
- (xiv)
 - (a) In our opinion and according to the information and explanations given to us, the Company has an internal audit system as per the provisions of section 138 of the Act which is commensurate with the size and nature of its business.
 - (b) We have considered the reports issued by the Internal Auditors of the Company till date for the period under audit.
- (xv) According to the information and explanation given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and accordingly, reporting under clause 3(xv) of the Order with respect to compliance with the provisions of section 192 of the Act are not applicable to the Company.
- (xvi)
 - The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, reporting under clauses 3(xvi)(a),(b) and (c) of the Order are not applicable to the Company.
 - (d) Based on the information and explanations given to us and as represented by the management of the Company, the Group (as defined in Core Investment Companies (Reserve Bank) Directions, 2016) does not have any CIC.
- (xvii) The Company has not incurred any cash losses in the current financial year as well as the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year. Accordingly, reporting under clause 3(xviii) of the Order is not applicable to the Company.
- (xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the plans of the Board of Directors and management and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

Annexure II

Independent Auditor's Report on the internal financial controls with reference to the financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the financial statements of Taurus Value Steel & Pipes Private Limited ('the Company') as at and for the year ended 31 March 2025, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

OMN & ASSOCIATES CHARTERED ACCOUNTANTS

Email: mkjain@omnassociates.in

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

MATERIAL ACCOUNTING POLICIES INFORMATION

1. GENERAL INFORMATION

Taurus Value Steel & Pipes Private Limited, an ISO 9001 company, is a wholly owned subsidiary of Shankara Building Products Limited (Formerly Shankara Infrastructure Materials Ltd). It is engaged in the manufacture of MS Pipes & Precision tubes at its manufacturing units at Hyderabad.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

The financial statements for the year ended March 31, 2025 (including comparatives) are duly adopted by the Board of Directors in the meeting held on 8th May 2025 for consideration and approval by the shareholders.

2.2 Functional and presentation currency

These financial statements have been prepared and presented in Indian Rupees and all amounts have been presented in crores with two decimals, except share data and as otherwise stated.

2.3 Basis of preparation and presentation

These financial statements have been prepared and presented under accrual basis of accounting and as a going concern on historical cost convention or fair values as per the requirements of Ind AS prescribed under section 133 of the Act and relevant provisions thereon.

Disclosures under Ind AS are made only in respect of material items and in respect of the items that will be useful to the users of financial statements in making economic decisions.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use in Ind AS 36.

Current and Non-Current Classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle or 12 months or other criteria as set out in the Schedule III to the Companies Act, 2013. Based on the nature of its business, the company has ascertained its operating cycle to be 12 months for the purpose of current and non-current classification of assets and liabilities.

2.4 Revenue recognition

2.4.1 Sale of products

Revenue is recognized on fulfilment of performance obligation. In other words, revenue is recognized when a promise in a customer contract (performance obligation) has been satisfied by transferring control over the promised goods to the customer.

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

MATERIAL ACCOUNTING POLICIES INFORMATION

Revenue is measured at the fair value of the consideration received and receivable.

Revenue is recognized based on the consideration received and receivable net of discounts, rebates, returns, taxes and duties on sales when the products are delivered to a carrier for sale, which is when control of goods are transferred to the customer.

2.4.2 Dividend and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition. Interest income is recognised on time proportion basis.

2.4.3 Rental income

Rental income from operating leases (of company's investment properties) is recognised on straight-line basis over the term of the relevant lease, except where rentals are structured to increase in line with expected general inflation. Initial direct cost, if any, incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on straight-line basis over the lease term.

2.4.4 Other Income

Other income is recognised on accrual basis provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

2.5 Property, plant and equipment

Recognition and measurement

The cost of property, plant and equipment comprises its purchase price, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, including relevant borrowing costs for qualifying assets and any expected costs of decommissioning, net of any trade discounts and rebates.

Subsequent expenditure

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Property, plant and equipment are stated in the balance sheet at cost less accumulated depreciation / amortisation and impairment, if any.

Disposal of property, plant and equipment

An item of property, plant and equipment is derecognised upon disposal or on retirement, when no future economic benefits are expected to arise from the continued use of the asset.

Gains or losses on disposals are determined by comparing proceeds with the carrying amount. These are included in the Statement of Profit and Loss within other gains / (losses).

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

MATERIAL ACCOUNTING POLICIES INFORMATION

Depreciation

Depreciation commences when the assets are ready for their intended use. Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation is recognized so as to write off the cost of Property, Plant & Equipment (other than capital work in progress) less their residual values over their useful lives, using straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

Management has re-assessed the useful lives of the Property, plant and equipment and on the basis of technical evaluation, management is of the view that useful lives assessed by management, as above, are indicative of the estimated economic useful lives of the Property, plant and equipment. In respect of additions to Property, plant and equipment, depreciation has been charged on pro rata basis. Individual assets costing less than Rs.0.05 lakhs are depreciated fully during the year of purchase.

The Company reviews the residual value, useful lives and depreciation method annually and, if current estimates differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.

Capital work-in-progress

Capital work-in-progress includes cost of property, plant and equipment under installation/under development as at the balance sheet date. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

2.6 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and but not for sale in the ordinary course of business and not used in the production or supply of goods or services or for administrative purposes, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable, the borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of investment property is replaced, the carrying amount of the replaced part is derecognized.

Investment properties (except freehold land) are depreciated using straight-line method over their estimated useful lives. Investment properties generally have a useful life of 60 years. The useful life has been determined based on technical evaluation by management.

2.7 Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised in the income statement on a straight-line basis over their estimated useful lives of the intangible asset. Intangible assets that are not available for use are amortised from the date they are available for use.

The estimated useful lives are as follows:

Software - 3 years

Brand - 3 years

The amortisation period and amortisation method for intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An item of intangible assets is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the Statement of Profit or Loss when the asset is derecognised.

MATERIAL ACCOUNTING POLICIES INFORMATION

2.8 Impairment of property, plant and equipment and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Any reversal of the previously recognised impairment loss is limited to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

2.9 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Effective April 01, 2019, the company has adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 01, 2019 using the modified retrospective approach method. The company as a lessee has recognised the lease liability based on the remaining lease payments discounted using the incremental borrowing rate as of the date of initial application (being 01st April, 2019). The Right-of-Use (ROU) asset has been recognised at its carrying amount as if Ind AS 116 has been applied since the commencement date of the lease arrangement by using the incremental borrowing rate as at the transaction date (being 01st April, 2019). The company has not restated the comparatives information, instead, the cumulative effect of initially applying this standard has been recognised as an adjustment to the opening balance of retained earnings as on 01st April, 2019.

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The company makes an assessment of the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the company's operations, taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term for future periods is reassessed to ensure that the lease term reflects the current economic circumstances. In respect of such long term contracts, Ind AS 116 is applied.

MATERIAL ACCOUNTING POLICIES INFORMATION

Where the company is lessor

As per terms of lease agreements there is no substantial transfer of risk and reward of the property to the lessee. Accordingly such leased out assets are treated as belonging to the company. Rental income from operating leases is recognised on straight-line basis over the term of the relevant lease. Initial direct cost, if any, incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on straight-line basis over the lease term.

Where the company is a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the company assesses whether: (1) the contract involves the use of an identified asset (2) the company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the company has the right to direct the use of the asset.

At the date of commencement of the lease, the company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee. The company has however elected to use the exemptions provided by the standard on lease contracts for which the lease term ends within 12 months as of the date of initial application, and lease contracts for which the underlying asset is of low value.

For these short-term and low value leases, the company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term or useful life of the underlying asset whichever shorter.

Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

2.10 Inventories

Inventories are stated at lower of cost and net realizable value.

Cost comprises of purchase price, freight, other attributable cost, applicable taxes not eligible for credit, less rebates and discounts, which is determined on First-in, First-out ('FIFO') basis.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and selling expenses.

Stores and spares which does not meet the definition of property, plant and equipment are accounted as inventories

All items of inventories which are considered to be damaged, unmarketable or unserviceable and have become otherwise obsolete are valued at the estimated net realizable value.

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

MATERIAL ACCOUNTING POLICIES INFORMATION

Raw materials

Raw materials are valued at cost of purchase net of duties and include all expenses incurred in bringing such materials to the location of its use.

Finished goods

Finished goods include conversion costs in addition to the landed cost of raw materials.

Stock in Trade

Stock in trade cost includes the purchase price, freight, other attributable cost, applicable taxes not eligible for credit, less rebates and discounts.

Stores, spares and tools

Stores, spares and tools cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

2.11 Employee benefits

In respect of defined contribution plan the company makes the stipulated contributions to provident fund, employees' state insurance and pension fund, in respect of employees to the respective authorities under which the liability of the company is limited to the extent of the contribution.

The liability for gratuity, considered as defined benefit, is determined actuarially using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement.

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expenses'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the statement of financial position represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

The company recognizes a liability and an expense for bonus. The company recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

Taurus Value Steel & Pipes Private Limited

MATERIAL ACCOUNTING POLICIES INFORMATION

2.12 Income taxes

Tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax is the amount of tax payable based on the taxable profit for the year as determined in accordance with the applicable tax rates and the provisions of the Indian Income Tax Act, 1961.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each annual reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current and deferred tax are recognised in the statement of profit and loss, except when they are related to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

The Company has exercised option to pay income tax u/s. 115BAA of the Income Tax Act, 1961 from the financial year 2019-2020. Hence the provisions relating to minimum alternate tax (MAT) are not applicable to the Company.

2.13 Foreign currency translation

The functional currency of the company is determined on the basis of the primary economic environment in which it operates. The functional currency of the Company is Indian National Rupee (INR).

The transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in Statement of Profit and Loss in the period in which they arise except for:

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

MATERIAL ACCOUNTING POLICIES INFORMATION

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognized initially in other comprehensive income and reclassified from equity to Statement of Profit and Loss on repayment of the monetary items.

2.14 Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent Liabilities and Contingent Assets are not recognized but are disclosed in the notes.

2.15 Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for treasury shares, bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted earnings per share is computed by dividing the profit / (loss) after tax attributable to equity shareholders as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares including the treasury shares held by the company to satisfy the exercise of the share options by the employees.

2.16 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred under finance costs. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to interest costs.

2.17 Non-current assets held for sale / distribution to owners and discontinued operations

The Company classifies non-current assets and disposal groups as held for sale/ distribution to owners if their carrying amounts will be recovered principally through a sale / distribution rather than through continuing use. Actions required to complete the sale/ distribution should indicate that it is unlikely that significant changes to the sale/ distribution will be made or that the decision to sell/ distribute will be withdrawn. Management must be committed to the sale/distribution and it is expected to be completed within one year from the date of classification.

The criteria for held for sale/ distribution classification is regarded as met only when the assets or disposal group is available for immediate sale/ distribution in its present condition, subject only to terms that are usual and customary for sales/ distribution of such assets (or disposal groups), its sale/ distribution is highly probable; and it will genuinely be sold, not abandoned. The group treats sale/ distribution of the asset or disposal group to be highly probable when:

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

MATERIAL ACCOUNTING POLICIES INFORMATION

- The appropriate level of management is committed to a plan to sell the asset (or disposal group);
- An active programme to locate a buyer and complete the plan has been initiated;
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value;
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification; and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale/for distribution to owners and disposal groups are measured at the lower of their carrying amount and the fair value less costs to sell/ distribute. Assets and liabilities classified as held for sale/ distribution are presented separately in the balance sheet. Property, plant and equipment and intangible assets once classified as held for sale/ distribution to owners are not depreciated or amortised.

A disposal group qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- Represents a separate major line of business or geographical area of operations,
- Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations
- Is a subsidiary acquired exclusively with a view to resale

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

2.18 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets (Other than Trade receivables) and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through Statement of Profit and Loss ('FVTPL')) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in Statement of Profit and Loss.

Trade receivables are recognised when they are originated.

Trade payables are in respect of the amount due on account of goods purchased or services availed in the normal course of business. They are recognised at their transaction and services availed value if the transaction do not contain significant financing component.

a) Financial Assets

(i) Recognition and initial measurement

Financial assets (other than Trade receivables) are recognized initially at fair value. Transaction costs that are directly attributable to the acquisition of financial assets (other than financial assets at fair value through Statement of Profit or Loss ('FVTPL')) are added to the fair value of the financial assets, on initial recognition. Transaction cost directly attributable to the acquisition of financial assets at FVTPL are recognized immediately in Statement of Profit and Loss.

Trade receivables are recognised at their transaction value as the same do not contain significant financing component

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortized cost
- Debt instruments at fair value through other comprehensive income (FVTOCI);
- Debt instruments and equity instruments at fair value through profit or loss (FVTPL);
- Equity instruments measured at fair value through other comprehensive income (FVTOCI).

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

MATERIAL ACCOUNTING POLICIES INFORMATION

Debt instruments at amortised cost:

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI:

A 'debt instrument' is classified as FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI).

Debt instrument at FVTPL:

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as amortized cost or as FVTOCI, is classified as FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as FVTPL. However, such election is chosen only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

(iii) De-recognition of financial assets

A financial asset is de-recognised only when:

- a. The entity has transferred the rights to receive cash flows from the financial asset or
- b. The entity retains the contractual rights to receive the cash flows of the financial asset, but expects a contractual obligation to pay the cash flows to one or more recipients.

Where entity has transferred an asset, the Group examines and assesses whether it has transferred substantially all risk and rewards of ownership of financial asset. In such cases, financial asset is de-recognised. Where entity has not transferred substantially all risks and rewards of ownership of financial asset, such financial asset is not de-recognised.

Where the entity has neither transferred a financial asset nor retains substantially all risk and rewards of ownership of the financial asset, the financial asset is de-recognised, if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(iv) Investment in subsidiaries:

The company's investment in equity instruments of subsidiaries are accounted for at cost as per Ind AS 27, including adjustment for fair value of obligations, if any, in relation to such subsidiaries.

b) Financial liabilities and equity instruments

(i) Initial recognition and measurement

All financial liabilities are recognized initially at fair value plus transaction cost (if any) that is attributable to the acquisition of the financial liabilities which is also adjusted.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

MATERIAL ACCOUNTING POLICIES INFORMATION

Loans and borrowings:

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognized in profit or loss when the liabilities are de-recognised as well as through the EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Trade and other payables:

These amounts represent liabilities for goods or services provided to the Company which are unpaid at the end of the reporting period. Trade and other payables are presented as current liabilities when the payment is due within a period of 12 months from the end of the reporting period. For all trade and other payables classified as current, the carrying amounts approximate fair value due to the short maturity of these instruments. Other payables falling due after 12 months from the end of the reporting period are presented as non-current liabilities and are measured at amortised cost unless designated at fair value through profit and loss at the inception.

The Company enters into deferred payment arrangements (acceptances) whereby lenders such as banks and other financial institutions make payments to supplier's banks for purchase of raw materials. The banks and financial institutions are subsequently repaid by the Company at a later date. These are normally settled up to 90 days. These arrangements for raw materials are recognized as Acceptances i.e. trade payables and are included in total outstanding due of creditors other than micro enterprises and small enterprises.

Financial guarantee

Financial guarantee contracts issued by the company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because, the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortisation.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

Other financial liabilities at fair value through profit or loss:

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Gains or losses on liabilities held for trading or designated as at FVTPL are recognized in the profit or loss.

(iii) Derecognition of financial liabilities:

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or Modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

c) Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

MATERIAL ACCOUNTING POLICIES INFORMATION

d) Impairment of Financial assets

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognizes lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses, if the credit risk on the financial asset has increased significantly since initial recognition.

e) Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability which are accessible to the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable, or
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level Input that is significant to the fair value measurement as a whole) at the end of each reporting period.

f) Derivative financial instruments

Derivative financial instruments are accounted for at FVTPL except for derivatives designated as hedging instruments in cash flow hedge relationships, which require a specific accounting treatment. To qualify for hedge accounting, the hedging relationship must meet several strict conditions with respect to documentation, probability of occurrence of the hedged transaction and hedge effectiveness. These arrangements have been entered into to mitigate currency exchange risk arising on account of repayment of foreign currency term loan and interest thereon. For the reporting periods under review, the company has not designated any forward currency contracts as hedging instruments.

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

MATERIAL ACCOUNTING POLICIES INFORMATION

2.19 Cash and cash equivalents and cash flow statement

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Cash flows are reported using the indirect method, whereby profit/ (loss) before extraordinary items and tax is appropriately classified for the effects of transactions of non-cash nature and any deferrals or accruals of past or future receipts or payments. In cash flow statement, cash and cash equivalents include cash in hand, balances with banks in current accounts and other short- term highly liquid investments with original maturities of three months or less.

2.20 Dividend on ordinary shares

The Company recognises a liability to make cash or non-cash distributions to equity holders of the company when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the Companies Act, 2013, a distribution is authorised when it is approved by the shareholders. The amount so authorised is recognised directly in equity.

2.21 Segment reporting

An operating segment is defined as a component of the entity that represents business activities from which it earns revenues and incurs expenses and for which discrete financial information is available. The operating segments are based on the entity's internal reporting structure and the manner in which operating results are reviewed by the Chief Operating Decision Maker (CODM).

2.22 Recent Pronouncements

The Ministry of Corporate Affairs ("MCA") notifies new standards or amendment to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

For the year ended March 31, 2025, MCA has notified Ind AS – 117 Insurance contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions applicable from April 01,2024. The company has reviewed the new pronouncements and based on its evaluation opines that it does not have any impact in its financial statements.

3. KEY SOURCES OF ESTIMATION UNCERTAINTY AND CRITICAL ACCOUNTING JUDGEMENTS

In the course of applying the policies outlined in all notes under section 2 above, the Company is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future period, if the revision affects current and future period.

(i) Useful lives of property, plant and equipment

Management reviews the useful lives of property, plant and equipment once a year. Such lives are dependent upon an assessment of both the technical lives of the assets and also their likely economic lives based on various internal and external factors including relative efficiency and operating costs. Accordingly depreciable lives are reviewed annually using the best information available to the Management.

(ii) Impairment of investments in subsidiaries

Determining whether the investments in subsidiaries are impaired, requires an estimate in the value in use of investments. In considering the value in use, the Directors have anticipated the future commodity prices, capacity utilization of plants, operating margins, discount rates and other factors of the underlying businesses / operations of the investee companies. Any subsequent changes to the cash flows due to changes in the above mentioned factors could impact the carrying value of investments.

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

MATERIAL ACCOUNTING POLICIES INFORMATION

(iii) Provisions and liabilities

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events that can reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change. The amounts are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(iv) Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Potential liabilities that are possible but not probable of crystallising or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognized.

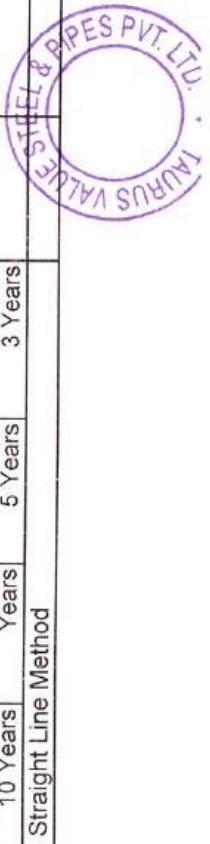

(v) Fair value measurements

When the fair values of financial assets or financial liabilities recorded or disclosed in the financial statements cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgements include consideration of inputs such as liquidity risk, credit risk and volatility.

Estimation of fair value

The best evidence of fair values is current prices in an active market for similar properties. Since investment properties are leased out by the Company, the market rate for sale/purchase of such premises are representative of fair values. Company's investment properties are at a location where active market is available for similar kind of properties. Hence fair value is ascertained on the basis of market rates prevailing for similar properties in those location as determined by an Independent registered valuer as defined under Rule 2 of Companies (registered valuers and valuation) Rules, 2017 and consequently classified as a level 2 valuation.

The credit period on goods sold ranges from 30 to 60 days without security. No interest is charged on overdue trade receivable. Trade receivable with credit impairment is identified on case to case basis.

In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix.

Before accepting any new customer, the company evaluates the financial position, past performance, business opportunities, credit references etc of the new customer and defines credit limit and credit period. The credit limit and the credit period are reviewed at periodical intervals.

The Company does not generally hold any collateral or other credit enhancements over these balances nor does it have a legal right of offset against any amounts owed by the Company to the counterparty.

Trade receivables have been given as collateral towards borrowings (refer security note below Note 22).

In determining the recoverability of a trade receivable, the Company considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the fact that the customer base is large and unrelated.

21 INCOME TAXES

Indian companies are subject to Indian income tax on a standalone basis. Each entity is assessed to tax on taxable profits determined for each fiscal year beginning on April 1 and ending on March 31.

Incomes are assessed based on book profits prepared under generally accepted accounting principles in India adjusted in accordance with the provisions of the Income tax Act, 1961. Such adjustments generally relate to depreciation of fixed assets, disallowances of certain provisions and accruals, the set-off of tax losses and depreciation carried forward and retirement benefit costs.

The Company has opted to exercise the option permitted under section 115BAA of the Income-tax Act, 1961. Accordingly, the Company has made a provision for Income tax and re-measured its deferred tax at the rate prescribed by the section. Income tax is charged at 22% plus surcharge of 10% plus health and education cess of

Particulars	As at 31-03-2025	As at 31-03-2024
Estimated value of capital commitments towards buildings (Net of advances)	Nil	Nil

38 Segmental information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The board of directors of the Company assesses the financial performance and position of the Company. The Board of Directors of the company has been identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS 108, Operating Segments.

The Company operates in only one segment viz; manufacturing of MS Pipes & Precision tubes and in one geographical location ie. India. Accordingly, no separate disclosure has been made for primary segment and secondary segment. The reportable business segments are in line with the segment wise information which is being presented to the CODM.

39 Operating lease

a) **As lessor:**

Leasing Arrangements:

The investment properties are leased to tenants under operating leases with rentals payable monthly. Minimum lease payments receivable on leases of investment properties are as follows:

Particulars	As at 31-03-2025	As at 31-03-2024
Within one year	0.64	0.64
Between 1 and 2 years	0.67	0.67
Between 2 and 3 years	0.70	0.70
Between 3 and 4 years	-	-
Between 4 and 5 years	-	-
Later than 5 years	-	-
	2.01	2.01

b) **As lessee:**

Various Buildings have been taken on operating lease with lease term between 11 and 72 months for office/factory premises and residential accommodation of employees, which are renewable on a periodic basis by mutual consent of both parties. All the operating leases are cancellable by either parties for any reason by giving a prior notice before 1 to 3 months. There is no restriction imposed by lease arrangements, such as those concerning dividends and additional debts.

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised.

For the short-term and low value leases, the company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Accounting for Leases under IND AS 116

Particulars	For the Year ended 31.03.2025	For the Year ended 31.03.2024
Gross carrying amount of right of use assets	0.93	0.95
Depreciation charged for the Right-of-use assets	0.20	0.14

43 Employee benefits

a) Defined contribution plans

Contribution to Defined Contribution Plans, recognised as an expense for the year is as under:

Particulars	For the Year ended 31.03.2025	For the Year ended 31.03.2024
Employer's Contribution to Provident Fund (includes pension fund)	0.02	0.02
Employer's Contribution to Employee State Insurance	0.00	0.00

b) Defined benefit plan

(i) Gratuity

The Company has funded the gratuity liability ascertained on actuarial basis, wherein every employee who has completed five years or more of service is entitled to gratuity on retirement or resignation or death calculated at 15 days salary for each completed year of service, subject to a maximum of Rs. 20 lacs per employee. The vesting period for Gratuity as payable under The Payment of Gratuity Act is 5 years.

The plans in India typically expose the Company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk: The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to government bond yields; if the return on plan asset is below this rate, it will create a plan deficit.

Interest risk: A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk: The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

There are no other post-retirement benefits provided to employees.

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out at 31st March 2025 by M/S Ankolekar & Co., Actuaries and Consultants. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

Gratuity (Funded)

Experience adjustments

Particulars	31-03-2025	31-03-2024	31-03-2023	31-03-2022	31-03-2021
Defined Benefit Obligation	0.11	0.09	0.09	0.07	0.07
Plan Assets	0.10	0.09	0.08	0.07	0.06
Surplus / (Deficit)	(0.01)	(0.00)	(0.01)	(0.00)	(0.01)
Experience Adjustments on Plan Liabilities – (Loss)/Gain	(0.01)	(0.01)	0.00	0.00	0.01
Experience Adjustments on Plan Assets – (Loss)/Gain					

The Company expects to contribute Rs.0.53 lakhs (previous year Rs.0.47 lakhs) to its gratuity plan for the next year.

In assessing the Company's post retirement liabilities, the Company monitors mortality assumptions and uses up-to date mortality tables, the base being the Indian assured lives mortality (2006-08) ultimate.

Expected return on plan assets is based on expectation of the average long term rate of return expected on investments of the fund during the estimated term of the obligations after considering several applicable factors such as the composition of plan assets, investment strategy, market scenario, etc.

The estimates of future salary increase, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

(Rupees in Crores)

The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.

Effective March 29, 2018, the Government of India has notified the Payment of Gratuity (Amendment) Act, 2018 to raise the statutory ceiling on gratuity benefit payable to each employee to Rs 20 lacs from Rs 10 lacs. Accordingly the amended and improved benefits, if any, are recognised as current year's expense as provided under paragraph 103, Ind AS 19.

Sensitivity Analysis:

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	Impact on Defined benefit obligation			
	31-03-2025		31-03-2024	
	Increase	Decrease	Increase	Decrease
Discount rate (1% increase)	-	0.01	-	0.01
Discount rate (1% decrease)	0.01	-	0.01	-
Future salary growth (1% increase)	0.01	-	0.01	-
Future salary growth (1% decrease)	-	0.01	-	0.01
Attrition rate (1% increase)	-	0.00	-	-
Attrition rate (1% decrease)	0.00	-	-	-

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

The average expected remaining lifetime of the plan members is 7 years as at the valuation date which represents the weighted average of the expected remaining lifetime of all plan participants.

The expected maturity analysis of the benefit payments of gratuity is as follows:

Particulars	Less than a year	Between 1 - 2 years	Between 2 - 5 years	Over 5 years	Total
31-03-2025					
Defined benefit obligation (Gratuity)	0.02	0.02	0.03	0.06	0.13
Total	0.02	0.02	0.03	0.06	0.13
31-03-2024					
Defined benefit obligation (Gratuity)	0.02	0.01	0.04	0.06	0.13
Total	0.02	0.01	0.04	0.06	0.13

The Company had deployed its investment assets in an insurance plan which is invested in market linked bonds. The investment returns of the market-linked plan are sensitive to the changes in interest rates as compared with the investment returns from the smooth return investment plan. The liabilities' duration is not matched with the assets' duration.

The liabilities of the fund are funded by assets. The company aims to maintain a close to full-funding position at each Balance Sheet date. Future expected contributions are disclosed based on this principle.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Guarantees from directors

Personal guarantee given by the managing director to the company are for availing working capital facilities from the lender banks.

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

46 Financial Instruments

A. Capital risk management

The Company's capital requirements are mainly to fund its expansion, working capital. The principal source of funding of the Company has been, and is expected to continue to be, cash generated from its operations supplemented by borrowing from bank and the financial support from holding company on need basis. The Company is not subject to any externally imposed capital requirements.

The Company regularly considers other financing and refinancing opportunities to diversify its debt profile, reduce interest cost and closely monitors its judicious allocation amongst competing expansion projects and strategic acquisitions, to capture market opportunities at minimum risk

The Company monitors its capital using gearing ratio, which is net debt divided to total equity. Net debt includes, interest bearing loans and borrowings less cash and cash equivalents, Bank balances other than cash and cash equivalents.

Particulars	As at 31-03-2025	As at 31-03-2024
Long term borrowings	-	-
Current maturities of long term debt	-	1.35
Short term borrowings	-	4.27
Less: Cash and cash equivalents	(0.92)	(0.02)
Net Debt	(0.92)	5.60
Total Equity	105.12	105.87
Gearing Ratio	(0.01)	0.05

i) Equity includes all capital and reserves of the Company that are managed as capital.
 ii) Debt is defined as long and short term borrowings (excluding financial guarantee contracts), as described in Note 18 and 22

B. Categories of financial instruments

Particulars	31-03-2025	Fair Value	31-03-2024	Fair Value
Financial assets				
Measured at amortised cost				
Loans	66.38	66.38	69.13	69.13

Lease Liabilities	-	-	0.26	0.26
Other financial Liabilities	0.16	0.16	0.15	0.15
Total financial liabilities carried at amortised cost	0.55	0.55	6.16	6.16

The Company has certain Investment Properties whose fair value have been disclosed in Note no 5.

C. Financial risk management

The Company has a Risk Management Committee established by its Board of Directors for overseeing the Risk Management Framework and developing and monitoring the Company's risk management policies. The risk management policies are established to ensure timely identification and evaluation of risks, setting acceptable risk thresholds, identifying and mapping controls against these risks, monitor the risks and their limits, improve risk awareness and transparency. Risk management policies and systems are reviewed regularly to reflect changes in the market conditions and the Company's activities to provide reliable information to the Management and the Board to evaluate the adequacy of the risk management framework in relation to the risk faced by the Company.

The risk management policies aims to mitigate the following risks arising from the financial instruments:

- Market risk
- Credit risk; and
- Liquidity risk

D. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the market prices. The Company is exposed in the ordinary course of its business to risks related to changes in commodity prices and interest rates.

E. Commodity price risk:

The Company's revenue is exposed to the market risk of price fluctuations related to the sale of its steel and other building products. Market forces generally determine prices for the steel products sold by the Company. These prices may be influenced by factors such as supply and demand, production costs (including the costs of raw material inputs) and global and regional economic conditions and growth. Adverse changes in any of these factors may reduce the revenue that the Company earns from the sale of its steel products.

The Company purchases the steel and other building products in the open market from third parties as well as from subsidiaries in prevailing market price. The Company is therefore subject to fluctuations in the prices of Steel coil, Steel pipes, zinc, Sanitary wares etc.

The Company aims to sell the products at prevailing market prices. Similarly the Company procures the products based on prevailing market rates as the selling prices of steel products and the prices of inputs move in the same direction.

Inventory Sensitivity Analysis(Raw materials & Finished goods)

A reasonably possible changes of 1% in prices of inventory at the reporting date, would have increased (decreased) equity and profit or loss by the amounts shown below.
The analysis assumes that all other variables remain constant.

Particulars	Impact on profit or (loss)		Impact on Equity, net of tax	
	March 31, 2025	March 31, 2024	March 31, 2025	March 31, 2024
1% increase in prices of Inventory	(0.16)	(0.12)	(0.12)	(0.09)
1% decrease in prices of Inventory	0.16	0.12	0.12	0.09

F. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk since funds are borrowed at floating interest rates. Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rate. The borrowings of the Company are principally denominated in rupees. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings.

The following table provides a break-up of the Company's fixed and floating rate borrowings:

Particulars	As at 31-03-2025		As at 31-03-2024	
	Fixed rate borrowings	Floating rate borrowings	Fixed rate borrowings	Floating rate borrowings
Total borrowings with interest	-	-	5.62	5.62

Sensitivity analysis for variable-rate instruments

This analysis assumes that all other variables remain constant.

Particulars	Impact on profit or loss		Impact on Equity, net of tax	
	March 31, 2025	March 31, 2024	March 31, 2025	March 31, 2024
100 basis points increase in interest rates	-	(0.06)	-	(0.04)
100 basis points decrease in interest rates	-	0.06	-	0.04

G. Credit risk management:

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of credit worthiness as well as concentration risks.

Company's credit risk arises principally from the trade receivables and advances

Trade receivables:

Customer credit risk is managed centrally by the company and subject to established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on financial position, past performance, business/ economic conditions, market reputation, expected business etc. Based on that credit limit & credit terms are decided. Outstanding customer receivables are regularly monitored

Trade receivables consist of a large number of customers spread across diverse industries and geographical areas with no significant concentration of credit risk. The outstanding trade receivables are regularly monitored and appropriate action is taken for collection of overdue receivables.

Year ended 31-03-2025
Expected credit loss for trade receivables under simplified approach

Ageing	Not due	Less than 6 months	6 months -1 year	1-2 years	2-3 years	More than 3 years	Total
Gross carrying amount - Trade receivables	0.28	-	-	-	-	-	0.28
Expected credit losses (Loss allowance provision) - trade	-	-	-	-	-	-	-
Carrying amount of trade receivables (net of impairment)	0.28						0.28

Year ended 31-03-2024
Expected credit loss for trade receivables under simplified approach

Ageing	Not due	Less than 6 months	6 months -1 year	1-2 years	2-3 years	More than 3 years	Total
Gross carrying amount - Trade receivables	7.39	-	-	-	-	-	7.39
Expected credit losses (Loss allowance provision) - trade	-	-	-	-	-	-	(0.37)
Carrying amount of trade receivables (net of impairment)	7.39						7.75

H. Liquidity risk management

Liquidity risk refers to the risk of financial distress or extraordinary high financing costs arising due to shortage of liquid funds in a situation where business conditions unexpectedly deteriorate and requiring financing. The Company requires funds both for short term operational needs as well as for strategic acquisitions. The Company generates sufficient cash flow for operations, which together with the available cash and cash equivalents and short term borrowings provide liquidity. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The company has access to the following undrawn borrowing facilities at the end of the reporting period:

Financing arrangements

(Rupees in Crores)

Particulars	As at 31-03-2025	As at 31-03-2024
Floating Rate		
- Expiring within one year	-	0.05
- Expiring beyond one year	-	0.05

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods and its non-derivative financial assets. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

Liquidity exposure as at 31 March 2025

Particulars	< 1 year	1-5 years	> 5 years	Total

* including current maturities of long term debt

The amount of guarantees given on behalf of holding company included in Note No.45(c) represents the maximum amount the Company could be forced to settle for the full guaranteed amount. Based on the expectation at the end of the reporting period, the Company considers that it is more likely than not that such an amount will not be payable under the arrangement.

Collateral

The Company has pledged part of its trade receivables, short term investments and cash and cash equivalents in order to fulfil certain collateral requirements for the banking facilities extended to the Company. There is an obligation to return the securities to the Company once these banking facilities are surrendered. (Refer note 18 and 22)

I. Level wise disclosure of financial instruments

Particulars	Carrying Value	As at 31-03-2025			As at 31-03-2024		
		FairValue Level 1	FairValue Level 2	Carrying Value Level 3	FairValue Level 1	Carrying Value Level 2	Carrying Value Level 3

Notes to the Financial Statements

(Rupees in Crores)

48 Ratios as per the Schedule III requirements

A. Current ratio=Current assets / Current liabilities.

Particulars	As at 31.03.2025	As at 31.03.2024
Current assets	28.19	24.97
Current Liabilities	0.56	6.19
Ratio (times)	50.22	4.03
% change from previous year	1,145.84	

Reason for change more than 25%: Due to decrease in current liabilities

B. Net Debt-Equity Ratio =Net debt / total equity

Particulars	As at 31.03.2025	As at 31.03.2024
Net Debt (refer note (i) below)	-0.92	5.60
Equity	105.12	105.87
Ratio (times)	-0.01	0.05
% change from previous year	(116.48)	-

Note

(i) Net debt = Long term borrowings + Short term borrowings - Cash and cash equivalents

Reason for change more than 25%: Due to decrease in Net debt

C. Debt service coverage ratio=Earnings available for debt service / Interest expense and principal repayment of long term loan made during the year.

Particulars	As at 31.03.2025	As at 31.03.2024
Earnings available for debt services (refer note (i) below)	0.99	4.84
Interest + Principal Repayments of long term loans made during the period excluding prepayment	1.52	1.29
Ratio (times)	0.65	3.74
% change from previous year	(82.70)	

Note

(i) Earnings available for debt service = Earnings before interest, tax, exceptional items, depreciation and amortisation

Reason for change more than 25%: Due to reduction of Earnings available for debt services

D. Return on equity ratio=Net profit after tax / average equity

Particulars	As at 31.03.2025	As at 31.03.2024
Net profit after tax	-0.75	2.11
Average shareholders equity (refer note (i) below)	105.50	104.82
Ratios(percentage)	-0.71%	2.02%
% change from previous year	(135.29)	

Note

(i) Average shareholders equity = (Total equity as at beginning of respective year + total equity as at end of respective year) divided by 2

Reason for change more than 25%: Due to decrease in net profit

E. Inventory turnover ratio= Cost of goods sold / average inventory

Particulars	As at 31.03.2025	As at 31.03.2024
Cost of goods sold (refer note (i) below)	33.08	60.28
Average inventory (refer note (ii) below)	13.19	13.39
Ratio (times)	2.51	4.50
% change from previous year	(44.31)	

Note

(i) Cost of goods sold of respective year = Cost materials consumed + purchases + Changes in inventory

(ii) Average inventory = (Total inventory as at beginning of respective year + total inventory as at end of respective year) divided by 2

Reason for change more than 25%: Reduction in Cost of goods sold

Taurus Value Steel & Pipes Private Limited
Notes to the Financial Statements

(Rupees in Crores)

F. Trade receivables turnover ratio = Sales / Average trade receivables

Particulars	As at 31.03.2025	As at 31.03.2024
Turnover (refer note (i) below)	36.50	73.25
Average trade receivables (refer note (ii) below)	4.01	4.09
Ratio(times)	9.09	17.89
% change from previous year	-49.16	

Note

(i) Turnover = Revenue from operations (including GST)

(ii) Average trade receivables = (Total trade receivables as at beginning of respective year + total trade receivables as at end of respective year) divided by 2

Reason for change more than 25%: Due to decrease in turnover

G. Trade payables turnover ratio = Purchases / Average trade payables

Particulars	As at 31.03.2025	As at 31.03.2024
Purchases (including GST)	43.63	66.05
Average trade payables (refer note (i) below)	0.26	0.92
Ratio(times)	166.45	72.02
% change from previous year	131.12	

Note

(i) Average trade payables = (Total Trade Payables as at beginning of respective year + Total Trade Payables as at end of respective year) divided by 2

Reason for change more than 25%: Due to decrease in trade payables

H. Net capital turnover ratio = Revenue from operations / Working capital

Particulars	As at 31.03.2025	As at 31.03.2024
Revenue from operations	30.93	62.07
Working capital	27.62	18.77
Ratios (times)	1.12	3.31
% change from previous year	(66.15)	

Note

Working capital = Current assets - Current liabilities

Reason for change more than 25%: Decrease in Revenue for operations

I. Net profit ratio = Net profit after tax / Revenue from operations

Particulars	As at 31.03.2025	As at 31.03.2024
Net profit after tax	-0.75	2.11
Revenue from operations	30.93	62.07
Ratios(percentage)	-2.4%	3.4%
% change from previous year	(171.30)	

Reason for change more than 25%: Due to decrease in profit

J. Return on Capital employed = Earnings before interest and taxes (EBIT) / Capital employed

Particulars	As at 31.03.2025	As at 31.03.2024
EBIT (refer note (i) below)	-0.75	3.32
Capital employed (refer note (ii) below)	104.21	111.47
Ratios(percentage)	-0.7%	3.0%
% change from previous year	(124.13)	

Note

(i) EBIT = Profit before taxes + finance cost

(ii) Capital employed = Total equity + Net debt

Reason for change more than 25%: Due to decrease in profit

K. Return on investment = Income generated from investments / average investments

No investment was made by the Company. Hence this ratio is not applicable.
